Defence and Decolonisation in South-East Asia Karl Hack, 2013-12-16 This book explains why British defence policy and practice emerged as it did in the period 1941-67 by looking at the overlapping of colonial military economic and Cold War factors in the area. Its main focus is on the 1950s and the decolonisation era but it argues that the plans and conditions of this period can only be understood by tracing them back to their origins in the fall of Singapore. Also it shows how decolonisation was shaped not just by British aims but by the way communism, communalism and nationalism facilitated and frustrated these.

Laos Foreign Policy and Government Guide Volume 1 Strategic Information and Developments IBP, Inc., 2009-03-20

Laos Foreign Policy and Government Guide *Asia-Pacific Security Cooperation: National Interests and Regional Order* See Seng Tan, 2014-12-18 New developments in the Asia Pacific are forcing regional officials to rethink the way they manage security issues. The contributors to this work explore why some forms of security cooperation and institutionalisation in the region have proven more feasible than others. This work describes the emergence of the professions in late tsarist Russia and their struggle for autonomy from the aristocratic state. It also examines the ways in which the Russian professions both resembled and differed from their Western counterparts.

A Special Relationship Daniel Fineman, 1997-01-01 The development of the Thai American alliance from 1947 to 1958 dramatically transformed both countries' involvement in Southeast Asia. Bounded by two important political events in Thailand: an army coup in 1947 and the military's assumption of complete control of government in 1958, the period witnessed both the entrenchment of authoritarian military government in Thailand and a revolution in U.S.-Thai relations. During these years the modern Thai political system emerged and the United States established its interest and influence in mainland Southeast Asian affairs. The developments of the period made possible America's later more extensive involvement in Indochina. *A Special Relationship* provides the most comprehensive analysis of this critical founding period of the Thai American alliance. It reveals surprising new information on joint covert operations in Indochina, American support for suppression of government opponents, and CIA involvement in Thai domestic politics.

Britain, Southeast Asia and the Impact of the Korean War Nicholas Tarling, 2005 A sequel to the author's *Britain, Southeast Asia and the Onset of the Pacific War* (Cambridge University Press, 1996) and *Britain, Southeast Asia and the Onset of the Cold War* (Cambridge University Press, 1998), this book discusses Britain's policy towards Southeast Asia in the period 1950-55 when it was crucially affected by the struggle in Korea. The phases in that struggle are briefly described and placed in a world context to provide a context for discussing Britain's relations with Burma, Thailand, Indonesia and Indochina. Covering the dispute over West New Guinea and the Chinese Nationalist incursion into Burma, the book gives a full account of the Geneva conference 50 years ago which reached a settlement in Vietnam, Laos and Cambodia, and of the creation of the SEATO alliance. The focus of the work is on British policy and it is largely based on a study of British official records.

Abrams,2013 *Playing Tough* is an entertaining and thoroughly enlightening look at the unique and surprisingly outsized role that sports have played in politics and history Ever since the bread and circuses of Rome sports have been used as a tool to entertain the masses and to instill civic pride Abrams shows both the positive and the negative ways in which sports and politics have coalesced from the rabid nationalism of the 1936 Nazi Olympics the political grudge match of the Louis and Schmeling fights and the futbol war between Honduras and Costa Rica to the inspiring stories of South Africa's rugby nation building and Muhammad Ali's brave antiwar stance which nearly cost him his career Abrams is an informed and impassioned writer who chronicles the profoundly creative and destructive influence that sports have on the political life of our nation and the world This book will be of interest to any and all sports and politics enthusiasts and is a wonderful introduction for course creation and adoption *Qualitative Methods in Africana Studies* James L.
