*Think Green, Take Action* Daniel A. Kriesberg,2010-08-16 This book provides an annotated bibliography of age appropriate literature and activities showing children the importance of environmental issues and teaching them the skills to take action In past years teaching children about conservation and environmental issues might have been an optional side topic to complement an earth science curriculum but in today's educational climate being green is a subject with great relevance and importance This book combines a wide variety of techniques to help students understand environmental issues and gain the skills needed to take action The children's literature and classroom activities suggested in *Think Green Take Action Books and Activities for Kids* are appropriate for elementary school students from grades three through seven covering three major environmental issues endangered species resource depletion and pollution After students have a grasp of the causes of these environmental problems the final chapter presents ways to take easy action that can create ripples of change across the world Educators in museums and nature centers home schooled children and their parents comprise an appropriate secondary audience for this instructive text

*The Raptor Release* ,2001

*Return of the Eagle* Greg Breining,2008-02-26 This is the story of how a nation reversed a silent spring and saved the bald eagle from extinction This bird of prey was declared the national symbol in 1782 but by the 1960s pollution and development had wiped out all but a few dozen Grassroots movements started the American consciousness was raised to all environmental threats and federal laws were passed to keep the eagle population alive This stunning book of full color photographs and touching stories chronicles this inspiring success story with awe inspiring shots of eagles in flight There is also a one of a kind directory to more than 150 areas in the nation where eagles are likely to be seen in the wild soaring once again against the blue skies of freedom This book is a monument to the efforts that combined animal instinct for survival with the power of the human spirit to change the world
