Rascal Sterling North, 1963 The author recalls his carefree life in a small midwestern town at the close of World War I and his adventures with his pet raccoon Rascal. **Sterling North and the Story of Rascal** Sheila Terman Cohen, 2015-08-31 This Badger Bio shares the story of author Sterling North his adventures and misadventures as a young boy growing up in Edgerton Wisconsin. Young readers will learn how North's early experience in Wisconsin influenced him in writing some of his best loved children's books such as Rascal and So Dear To My Heart. The story gives readers a glimpse of early 20th century customs and lifestyles in the rural Midwest. It also includes global issues of the time including World War I and the Spanish flu pandemic which greatly affected Sterling's boyhood. As examples his admired older brother Hershel served overseas in WWI as Sterling was growing up bringing world events to the North family's doorstep. His mother Gladys died when Sterling was only 7 years old because of the lack of medical advances in the early 1900s. And as a young man Sterling was hit by polio a common epidemic scourge that left many children with paralysis. Readers will learn of Sterling North's successes not only as a beloved author of children's books but as a columnist for the Chicago Daily News an editor of North Star children's history books and a well respected critic of other children's literature. **A Landscape with Dragons** Michael D. O'Brien, 2011-05-24 The Harry Potter series of books and movies are wildly popular. Many Christians see the books as largely if not entirely harmless. Others regard them as dangerous and misleading. In his book A Landscape with Dragons Harry Potter critic Michael O'Brien examines contemporary children's literature and finds it spiritually and morally wanting. His analysis written before the rise of the popular Potter books and films anticipates many of the problems Harry Potter critics point to. A Landscape with Dragons is a controversial yet thoughtful study of what millions of young people are

reading and the possible impact such reading may have on them In this study of the pagan invasion of children s culture O'Brien the father of six describes his own coming to terms with the effect it has had on his family and on most families in Western society His analysis of the degeneration of books films and videos for the young is incisive and detailed Yet his approach is not simply critical for he suggests a number of remedies including several tools of discernment for parents and teachers in assessing the moral content and spiritual impact of this insidious revolution In doing so he points the way to rediscovery of time tested sources and to new developments in Christian culture If you have ever wondered why a certain children s book or film made you feel uneasy but you couldn't figure out why this book is just what you need This completely revised much expanded second edition also includes a very substantial recommended reading list of over 1 000 books for kindergarten through highschool

Making Americans Gary D. Schmidt, 2013-12-01 American children need books that draw on their own history and circumstances not just the classic European fairy tales They need books that enlist them in the great democratic experiment that is the United States These were the beliefs of many of the authors illustrators editors librarians and teachers who expanded and transformed children's book publishing between the 1930s and the 1960s Although some later critics have argued that the books published in this era offered a vision of a safe secure simple world without injustice or unhappy endings Gary D Schmidt shows that the progressive political agenda shared by many Americans who wrote illustrated published and taught children's books had a powerful effect Authors like James Daugherty Laura Ingalls Wilder Lois Lenski Ingri and Edgar Parin D'Aulaire Virginia Lee Burton Robert McCloskey and many others addressed directly and indirectly the major social issues of a turbulent time racism immigration and assimilation sexism poverty the Great Depression World War II the atomic bomb and the threat of a global cold war The central concern that many children's book authors and illustrators wrestled with was the meaning of America and democracy itself especially the tension between individual freedoms and community ties That process produced a flood of books focused on the American experience and intent on defining it in terms of progress toward inclusivity and social justice Again and again children's books addressed racial discrimination and segregation gender roles class differences the fate of Native Americans immigration and assimilation war and the role of the United States in the world Fiction and nonfiction for children urged them to see these issues as theirs to understand and in some ways theirs to resolve Making Americans is a study of a time when the authors and illustrators of children's books consciously set their eyes on national and international sights with the hope of bringing the next generation into a sense of full citizenship

Pandemic Re-Awakenings Guy Beiner, 2021-11-16 Pandemic Re-Awakenings offers a multi level and multi faceted exploration of a century of remembering forgetting and rediscovering the influenza pandemic of 1918-1919 arguably the greatest catastrophe in human history Twenty three researchers present original perspectives by critically investigating the hitherto unexplored vicissitudes of memory in the interrelated spheres of personal communal medical and cultural histories in different national and transnational settings across the globe The volume reveals how even though the Great Flu was overshadowed by the commemorative culture of the Great War recollections of the pandemic persisted over time to re-emerge towards the centenary of the Spanish Flu and burst into public consciousness following the outbreak of the COVID-19 pandemic The chapters chart historiographical neglect while acknowledging the often unnoticed dialogues between scientific and historical discourses probe silences and trace vestiges of social and cultural memories that long remained outside of what was considered collective memory
