upon my early work and the work of others by offering a comprehensive guide to practitioners interested in facing and helping to heal trauma and manage the drama systemically with a special focus on children and adolescents. The FST Model is a contribution to the fields of trauma, family sciences, and human development practice. Charles R. Figley, PhD, Kurzweg Chair in Disaster Mental Health at Tulane University in New Orleans. This is the first book that addresses trauma treatment for child and adolescents using a Family Systems Trauma (FST) model which goes beyond individual therapy to include the child and their entire family. Co-written by a renowned family therapist who created the Parenting with Love and Limits model, it delivers a research-based step-by-step approach that incorporates the child's immediate family along with their extended family to treat the traumatized child or adolescent. Using a stress chart, the child or adolescent's trauma symptoms are quickly identified. This strategy guides therapists in accurately diagnosing root causes of the child's trauma and culminates in the creation of co-created wound playbooks to heal trauma in both the child as well as other family members. Additional helpful features include extensive case examples, a menu of trauma techniques, wound playbook examples, evaluation forms, client handouts, and other practical tools to provide the therapist with a complete guide to implementing this approach. Child and family therapists, social workers, mental health counselors, and psychologists working in a variety of settings will find this book a valuable resource.

Key Features: Provides a step-by-step practice-focused, time-limited model. Uses a family systems approach for addressing child and adolescent trauma. The only book of its kind. Includes useful tools such as checklists, client handouts, and evaluation forms.

What My Students Taught Me David J. Fishkind, 2021-08-17. What My Students Taught Me is a reflective work covering time I spent teaching in Broward County, Florida. It is a collection of students' thoughts and feelings that inspired and taught me how to be a better teacher. It is about the impact a teacher can have on students over time and how that impact impacted me. What My Students Taught Me is more than just a title. It is how I refined my teaching over time. The letters and evaluations shaped how I dealt with students to meet their challenges and make the classroom a space where they felt safe and cared for as well as educated. My hope is that this work will serve as an inspiration for those who may be seeking to enter the teaching profession or as a reminder for those who do teach as to the why we chose this field. Enjoy.
