

# The Single European Act†

by John Leachery\*

## I. Introduction

Dreams of supranationality in Western Europe have faded in the face of an 'inter-governmental reality. The dream lives on, though, as an inter-governmental 'Community' and could not of itself provide sufficient political strength to achieve a true internal market.<sup>1</sup> This also is a common sentiment<sup>2</sup> accepted by all who wish the Community well, for at the heart of the Community system lies the goal of a true common market with all the accruing trade benefits.<sup>3</sup> Although a great deal has been achieved, there is still a long way to go.<sup>4</sup> It is

† The author has retained the highlights of that article.

\* Lecturer in Law, University of Birmingham, formerly Associate Professor of Law at the University of London, at Birmingham, where the article was written.

<sup>1</sup> Strictly speaking there are three communities, the European Coal and Steel Community, created by the Treaty of Paris in 1951, (Treaty establishing the European Coal and Steel Community, April 18, 1951, 205 T.I.C.T.S. 148 (1951)) signed as Treaty establishing the European Communities, No. 15 C.875a (hereinafter ECSC Treaty); the European Atomic Energy Community Treaty (signed by the European Coal and Steel Community, March 25, 1952, 204 T.I.C.T.S. 157 (1952)) (hereinafter E.A.E.C. Treaty); and the European Economic Community, created by the Treaty of Rome in 1957 (Treaty Establishing the European Economic Community, done at Rome, March 25, 1957, 205 T.I.C.T.S. 3 (hereinafter E.E.C. Treaty). A single room and partition very readily served all three communities from 1952 until in 1967 a Treaty constituted a single Council and a single Commission of the European Communities. For ease of reference I shall hereinafter refer to the communities as the "Community". See Houbert, *The History of Economic of the European Communities*, 3 *European Yearb. L.* 33 (1964).

<sup>2</sup> Even though aspects of decision-making are intergovernmental in character, the concept is legally capable of being achieved and acting a supranational character.

<sup>3</sup> This aim was recognized most recently at the following summit meetings: Brussels (1964), Fontainebleau and Laeken (1966), and Copenhagen (1972). See Leachery, *When Under: Considering the Internal Market*, 20 *Am. J. Int. Law*, 1004 (1976), 21 *Am. J. Int. Law* 2 (1976) (hereinafter *White Paper*).

<sup>4</sup> The benefits of a large unified home market (approximately 120 million people), even greater in size than the United States, is considered essential if European manufacturers are to compete with those from Japan and the United States. See D. G. Cairns, *The European Economic Community Manual* (4th ed., 1971) for an analysis of the economic advantages of common markets. Similarly, regional economic cooperation under a market can be also provided, due to trade in a common market. *Id.*

<sup>5</sup> For example, a customs union has already been established. Individual laws have also already entered into domestic legal rights in national courts. The Commission has drafted its own legal policy-compliance mechanism. For an overview of the Community's achievements to date, see Leachery, *in* *Law, Economics, Science, 1975*, 1976 *ANNUAL REPORT ON ACTIVITIES OF THE EUROPEAN*

**Intergovernmental Conference on Political Union** Finn Laursen, Sophie Vanhoonacker, 2023-12-11 The radical changes taking place in the international scene during the late 1980s have presented the European Communities with important new challenges The twelve Member States agreed that the only way to respond effectively to this new situation was to speed up the European integration process and in December 1990 two Intergovernmental Conferences were inaugurated focusing respectively on the development of an Economic and Monetary Union and a Political Union It was the difficult task of the Luxembourg and Dutch Presidencies to channel the often very diverging positions of the different actors in the process into one coherent set of amendments to the Treaties forming the European Communities This publication examines the positions which the different Member States the Commission and the European Parliament have been defending in the Intergovernmental Conference on Political Union and more particularly with regard to one of the most sensitive topics under discussion namely the development of a Common Foreign and Security Policy CFSP The introduction places the debate on the development of a Political Union and a CFSP in an historical perspective and gives an overview of the progression of the negotiations The concluding chapter presents a general framework for better understanding of the course and results of the negotiations and a critical evaluation of the outcome The annexes reproduce the main proposals on the development of a CFSP submitted to the Conference *US Department of State Dispatch*, 1993 Contains a diverse compilation of major speeches congressional testimony policy statements fact sheets and other foreign policy information from the State Dept

**The 1975 Referendum on Europe - Volume 2** Mark Baimbridge, Philip Whyman, Andrew Mullen, 2016-10-31 Provides an analysis of the relationship between the UK and the EU treating the key overarching issues in the 1975 referendum and looking ahead to the prospect eventually of further referendums on the subjects of EMU and a European constitution

**Legal Frameworks for the Built Environment** Jean Badman, Laurie Grimmet, 2013-12-16 Law is a complex subject and has major impacts on the built environment and all those working in it Law is seen as one of the strongest interdisciplinary links between the various professions it is essential to have a clear understanding of how both statute and common law as well as the legislative frameworks statutory controls policy and procedures affect all the roles areas throughout the built environment This book will provide students with a broad understanding of the law and its applications from disputes to land use **Project Europe** Kiran Klaus Patel, 2020-04-23 Today it often appears as though the European Union has entered

existential crisis after decades of success condemned by its adversaries as a bureaucratic monster eroding national

sovereignty at best wasteful at worst dangerous How did we reach this point and how has European integration impacted on ordinary people's lives not just in the member states but also beyond Did the predecessors of today's EU really create peace after World War II as is often argued How about its contribution to creating prosperity What was the role of citizens in this process and can the EU justifiably claim to be a community of values Kiran Klaus Patel's bracing look back at the myths and realities of integration challenges conventional wisdoms of Europhiles and Eurosceptics alike and shows that the future of Project Europe will depend on the lessons that Europeans derive from its past **Journalism Worthy of the Name** Herdís Thorgeirsdóttir, 2005-06-01 The subject of this study is freedom within the press the nature and limits of the protection afforded to the journalistic imparting process which has been a neglected area of research The analysis draws on the classical defenders of freedom of speech Milton and Mill to show that at the dawn of the 21st century the intertwined alliance between big business and public authorities resulting in the widespread phenomena of self censorship within the media constitutes an almost insurmountable obstacle Instead of enlightening the public and inspiring the individual the press may be contributing to an inert public and individual cowardice antithetical to the objectives of human dignity and democracy The core of the problem is that prima facie the infringement of freedom within the media is not exercised on legal premises and cannot therefore be solved within the legal framework The operation of the press in society is conditioned by three types of regulation legal regulation market regulation and self regulation Legal regulation does not adequately presuppose the impact of the latter as it is based on the assumption that press freedom is mainly a negative liberty The book explores the affirmative side of Article 10 of the European Convention on Human Rights to guarantee press freedom that is not merely illusory but practical and effective Convention jurisprudence has not only influenced the domestic courts of the Contracting Parties but also the legislators of the Member States In an era of globalization dominant media operators wield power in their own domestic markets to impede national regulators in adopting interventionist media policies to secure journalistic freedoms The Convention jurisprudence represents a kind of European *ius commune* which is here set in the context of an analysis reflecting the problems and values at issue and offering recommendations to alleviate a situation which threatens democratic ideals and public spirited journalism Bowker's Law Books and Serials in Print, 1998 *International Handbook on the Economics of Integration: General issues and regional groups* Miroslav N. Jovanović, 2011-01-01 International Handbook of Economic Integration edited by Miroslav Jovanović provides timely and rich academic contributions to considerations of the widest array of integration related issues European integration has been providing an inspiration to a number of academics and researchers The Handbook is a recognition of the dynamic and strong solidarity of the European integration At the same time the European Union often provided an example for integration schemes throughout the world which spread enormously since the mid 1990s Leading experts from all continents contributed to this Handbook which will be a valuable input into academic and policy making discussions and actions Jos Manuel Barroso President of the European Commission Miroslav

Jovanovi's publication represents a rich contribution to the complex issue of regional integration: its benefits, its shortcomings, and its relationship with multilateral trade opening. It sheds light over an issue which is the subject of intense discussions in trade circles. Pascal Lamy, Director General of the WTO, Much has been written on trade agreements as a mechanism to integrate the markets of two or more countries, often inspired by the European example. In recent years, attention has increasingly focused on the importance of economic geography as a determinant of industrial location. This book combines the two strands of analysis, bringing together leading experts in the fields of economic geography and international trade. The result is an outstanding compilation of papers that illuminate how policies and economic forces affect the location of economic activity in an integrated Europe. Bernard Hoekman, Director, The World Bank, US. The open multilateral trading system is a tremendous success of the past half century and has contributed greatly to the world's unprecedented rate of economic growth. Over the past two decades, however, preferential trading arrangements have proliferated, raising questions as to how compatible they are with the open multilateral system and what policies might be adopted to improve outcomes. The essays in this volume detail the emergence of PTAs and provide comprehensive and up-to-date analyses of the state of play of preferential arrangements in all regions of the world. The volume will provide a useful reference for all those wanting to understand existing preferential arrangements and their role in the international economy today. Anne O. Krueger, Johns Hopkins University and Stanford University, US. Economic integration is a complex and multifaceted giant with a myriad aspects ranging from regional and global concentration and dispersal of economic activity to social and political consequences for individuals and communities in developed and developing countries alike. This landmark three-volume collection of chapters by leading authors drawn from many fields is a worthy and timely contribution to the analysis of a phenomenon with profound implications for the future world economy and its governance. James Zhan, Director, Investment Enterprise Division, UNCTAD. With this Handbook, Miroslav Jovanovi has provided readers with both an excellent stand-alone original reference book as well as the first volume in a comprehensive three-volume set. This introduction into a rich and expanding academic and practical world of international economic integration also provides a theoretical and analytical framework to the reader, presenting select analytical studies and encouraging further research. *International Handbook on the Economics of Integration, Volume I* covers two broad themes: general integration issues and regional integration groups. The first part discusses topics that range from an overview of the regional integration deals registered with the World Trade Organization to multilateralism and regionalism, hub and spoke integration networks, limits to integration, rules of origin and globalization. The second part of the Han
