Considering Class: Theory, Culture and the Media in the 21st Century, 2017-11-06
Considering Class Theory Culture and Media in the 21st Century offers the reader international and interdisciplinary perspectives on the importance of class analysis in the 21st century Political economists sociologists educationalists ethnographers cultural and media analysts combine to provide a multi dimensional account of current class dynamics The crisis consists precisely in the gap between the objective reality and efficacy of class forces shaping international politics and the relative paucity of class consciousness at a popular level and appreciation of class as an explanatory optic at a theoretical level This important book shows why the process of reconstructing class consciousness must also take place on the ground of cultural and subjective formation where everyday values habits and media practices are in play Contributors are Anita Biressi Joseph Choonara Maurizio Donato Danny Dorling Mark Gibson Craig Haslop Dave Hill Peter Jakobsson Marina Kabat Holly Lewis Catherine Lumby Lisa Mckenzie Tony Moore Adrian Murray Deirdre O'Neill Jonathan Pratschke Michael Seltzer Eduardo Sartelli Fredrik Stiernstedt Roberto Taddeo Mike Wayne Milly Williamson Ferruh Yılmaz

Hegemonic Transformation Elaine Sio-ieng Hui, 2017-10-31 This book contends that the Chinese economic reform inaugurated since 1978 has been a top down passive revolution in Gramsci's term and that after three decades of reform the role of the Chinese state has been changing from steering the passive revolution through coercive tactics to establishing capitalist hegemony It illustrates that the labour law system is a crucial vehicle through which the Chinese party state seeks to secure the working

class's consent to the capitalist class's ethno-political leadership. The labour law system has exercised a double hegemonic effect with regards to the capital-labour relations and state-labour relations through four major mechanisms. However, these effects have influenced the Chinese migrant workers in an uneven manner. The affirmative workers have granted active consent to the ruling class leadership, the indifferent/ambiguous and critical workers have only rendered passive consent while the radical workers have refused to give any consent at all.

Social Class in Applied Linguistics David Block, 2013-12-04 In this ground-breaking new book David Block proposes a new working definition of social class in applied linguistics. Traditionally, research on language and identity has focused on aspects such as race, ethnicity, nationality, gender, religion, and sexuality. Political economy and social class as an identity inscription have been undervalued. This book argues that increasing socioeconomic inequality, which has come with the consolidation of neoliberal policies and practices worldwide, requires changes in how we think about identity and proposes that social class should be brought to the fore as a key construct. *Social Class in Applied Linguistics* begins with an in-depth theoretical discussion of social class before considering the extent to which social class has been a key construct in three general areas of applied linguistics: sociolinguistics, bi-multilingualism, and second language acquisition and learning research. Throughout the book, Block suggests ways in which social class might be incorporated into future applied linguistics research. A critical read for postgraduate students and researchers in the areas of applied linguistics, language education, and TESOL.

Populism and Its Limits, 2021-12-30 *Populism and Its Limits* is a response to the evaluative and celebratory approaches to populism in social sciences and humanities. It seeks to study the phenomenon of populism thoroughly, consider its limits, and if possible, propose ways out to other kinds of commitment in life, living, and politics. It aims to formulate responses that take on the spurious and non-dialectical dissociation between thought and action, intellect and emotion, the people and the elite.

Rethinking Class Wai-chee Dimock, Michael T. Gilmore, 1994 In recent years, as the centrality of race and gender has been established in literary studies, class has often been seen as a crude and reductionist concept. For this volume, the editors have commissioned essays arguing for the continuing vitality as well as the energizing problematics of the category of class.

Hegemony and Education Deb J. Hill, 2007-01-01 *Hegemony and Education* explores how the educational insights implicit in Antonio Gramsci's historical materialist outlook have been reconciled to the post-Marxist theory of radical democracy. The author argues that there is an urgent need to redefine the dynamics of hegemony as a theory centering on the problem of cognitive and moral, relational and valuational submissiveness that is a problem indicative of the pathologies of capitalism with respect to democratic theorizing.

Social Class and Marxism Neville Kirk, 2017-07-05 In recent years, historians and other social scientists have widely questioned the continued relevance of social class as historical relationship, as sociological category, as philosophical concept, and in terms of its enduring political significance. The success of the British Conservative Party since 1979, combined with the weaknesses and failures of the Labour movement, have led historians and

social scientists to reconsider the general nature of connections between the social and the political and the specific relations between the working class and socialist and Labour politics This collection of essays is a multi disciplinary critique of the new revisionism which demonstrates the continued vitality and promise of non reductionist and non determinist modes of class analysis

New Trade Union Activism S. Moore, 2010-12-08 The past decade has seen the emergence of new types of trade union representatives attracting new and more diverse activists this book explores their motivations and values drawing upon the voices of the activists themselves and capturing the relationship between work social identity and class consciousness
