Retro Stud Muscle Movie Posters From Around The World:

Retro Stud David Chapman,2002 The posters advertising the sword and sandal movies of forty years ago were every bit as dramatic and alluring as the movies themselves *Of Muscles and Men* Michael G. Cornelius,2011-09-29 Few movie genres have highlighted the male body more effectively than the sword and sandal film where the rippling torso and the bulging muscle are displayed for all to appreciate Carrying his phallic sword and dressed in traditional garb calculated to bring attention to his magnificent physique the sword and sandal hero is capable of toppling great nations rescuing heroines defeating monsters and generally saving the day Each of these essays examines the issues of masculinity and utility addressed in the sword and sandal genre The contributors offer insights on a film form which showcases its male protagonists as heroic violent fleshy and in the end extremely useful The Art of Movies Nicolae Sfetcu,2014-05-06 Movie is considered to be an important art form films entertain educate enlighten and inspire audiences Film is a term that encompasses motion pictures as individual projects as well as in metonymy the field in general The origin of the name comes from the fact that photographic film also called filmstock has historically been the primary medium for recording and displaying motion pictures Many other terms exist motion pictures or just pictures or picture the silver screen photoplays the cinema picture shows flicks and commonly movies **Exploring Film through Bad Cinema** David C. Wall,2025-08-08 Exploring Film through Bad Cinema offers an overview of the practice of film analysis through a specific focus on the concept of bad cinema within a series of broad cultural and historical contexts Providing a wide ranging discussion of film from multiple perspectives including history aesthetics and criticism this broad theoretical engagement illustrates the ways in which the registers of value that we apply to film are inseparable from the wider discourses of taste that shape our culture While loosely chronological it is largely thematic in arrangement as it applies the traditional methods of film studies to in depth discussions of some of the most notoriously and compellingly bad films in cinema history Situating its analysis of a wide variety of films and filmmakers in terms of period genre and issues such as the emergence of narrative cinema canon formation and the politics of cultural hierarchy it provides an in depth consideration of the multiple and complex social and aesthetic discourses that shape our qualitative assessments of film Designed for both the lay reader and student of film Exploring Film through Bad Cinema engages with a wide range of topics from film history and film theory to postmodernism exploitation and cult cinema This theoretically and historically sophisticated analysis will appeal to researchers and scholars in film studies as well as cognate disciplines such as screen studies visual studies and cultural studies **Spartacus in the Television Arena** Michael G. Cornelius,2015-03-06 Spartacus the Thracian gladiator turned rebel leader endures as a near mythic hero who fought for the oppressed against a Roman oligarchy built on the backs of slave labor The image of Spartacus as a noble if doomed avenger is familiar and his story has been retold through history as a cautionary tale about social injustice The television series Spartacus takes a different view with a violent depiction of the man and his times and a focus

on the archetype of the gladiator powerful courageous and righteous This collection of new essays studies the series as an exploration of masculinity In the world of Spartacus men jockey for social position question the nature of their lives examine their relationships with women and with each other and explore their roles in society and the universe The series also offers a compelling study of the composite nature of historical narrative in television and film where key facts from original sources are interwoven with period embellishments presenting audiences with a history and a fiction whose lines remain blurred by a distant yet all too familiar past

Imagining Ancient Cities in Film Marta Garcia Morcillo, Pauline Hanesworth, Óscar Marchena, 2015-02-11 In film imagery urban spaces show up not only as spatial settings of a story but also as projected ideas and forms that aim to recreate and capture the spirit of cultures societies and epochs Some cinematic cities have even managed to transcend fiction to become part of modern collective memory Can we imagine a futuristic city not inspired at least remotely by Fritz Lang's Metropolis In the same way ancient Babylon Troy and Rome can hardly be shaped in popular imagination without conscious or subconscious references to the striking visions of Griffiths Intolerance Petersen's Troy and Scott's Gladiator to mention only a few influential examples Imagining Ancient Cities in Film explores for the first time in scholarship film representations of cities of the Ancient World from early cinema to the 21st century The volume analyzes the different choices made by filmmakers art designers and screen writers to recreate ancient urban spaces as more or less convincing settings of mythical and historical events In looking behind and beyond intended archaeological accuracy symbolic fantasy primitivism exoticism and Hollywoodesque monumentality this volume pays particular attention to the depiction of cities as faces of ancient civilizations but also as containers of moral ideas and cultural fashions deeply rooted in the contemporary zeitgeist and in continuously revisited traditions

Descended from Hercules Robert A. Rushing, 2016-10-15 Muscles six pack abs skin and sweat fill the screen in the tawdry and tantalizing peplum films associated with epic Italian cinema of the 1950s and 1960s Using techniques like slow motion and stopped time these films instill the hero's vitality with timeless admiration and immerse the hero's body in a world that is lavishly eroticized but without sexual desire These sword and sandal films represent a century long cinematic biopolitical intervention that offers the spectator an imagined form of the male body one free of illness degeneracy and the burdens of poverty that defends goodness with brute strength and perseverance and serves as a model of ideal citizenry Robert A Rushing traces these epic heroes from Maciste in Cabiria in the early silent era to contemporary transnational figures like Arnold Schwarzenegger in Conan the Barbarian

and to films such as Zach Snyder's 300 Rushing explores how the very tactile modes of representation cement the genre's ideological grip on the viewer *Brill's Companion to Ancient Greek and Roman Warfare on Film* ,2023-12-18 Brill's Companion to Ancient Greek and Roman Warfare on Film is the first volume exclusively dedicated to the study of a theme that informs virtually every reimagining of the classical world on the big screen armed conflict Through a vast array of case studies from the silent era to recent years the collection traces cinema's enduring fascination with battles and violence in antiquity and explores the reasons both synchronic and diachronic for the central place that war occupies in celluloid Greece and Rome Situating films in their artistic economic and sociopolitical context the essays cast light on the industrial mechanisms through which the ancient battlefield is refashioned in cinema and investigate why the medium adopts a revisionist approach to textual and visual sources **Retro Stud** David Chapman,2001-01-01 Posters that teem with heroes in rippling muscles and skimpy loincloths were classic lures that used to tempt patrons into theaters to see the sword and sandal movies of 40 years ago This volume displays the beautiful artwork from around the world replete with sly sexuality and lithographed excitement Full color photos
