Piero Di Cosimo Dennis Geronimus, 2006-01-01 Inverting rules with obvious relish Florentine artist Piero di Cosimo 1462 1522 is known today as he was in his own time for his highly personal visual language one capable of generating images of the most mesmerizing oddity In this book Dennis Geronimus overcomes the scarcity of information about the artist's life and works only one of the nearly sixty known works by Piero is actually signed and dated and pieces together from extensive archival research the most complete and accurate account of Piero's life and career ever written Unfettered imagination was the sign under which Piero exercised his pictorial invention and yet the complicated artist was also a product of his culture The book fills gaps in the artist's biography and provides intensive analysis of Piero's protean imagery discusses his various patrons and commissions and lists his extant lost and uncertainly attributed works [Java Illuminated](#) Julie Anderson, Hervé J. Chacon, Rubén G. Mendoza, 2011-12-15 The decision to publish scholarly findings bearing on the question of Amerindian environmental degradation warfare and or violence is one that weighs heavily on anthropologists This burden stems from the fact that documentation of this may render descendant communities vulnerable to a host of predatory agendas and hostile modern forces Consequently some anthropologists and community

advocates alike argue that such culturally and socially sensitive and thereby politically volatile information regarding Amerindian induced environmental degradation and warfare should not be reported This admonition presents a conundrum for anthropologists and other social scientists employed in the academy or who work at the behest of tribal entities This work documents the various ethical dilemmas that confront anthropologists and researchers in general when investigating Amerindian communities The contributions to this volume explore the ramifications of reporting and specifically of non reporting instances of environmental degradation and warfare among Amerindians Collectively the contributions in this volume which extend across the disciplines of archaeology anthropology ethnohistory ethnic studies philosophy and medicine argue that the non reporting of environmental mismanagement and violence in Amerindian communities generally harms not only the field of anthropology but the Amerindian populations themselves Emergence and Collapse of Early Villages Timothy A.
