Return Of The King Remington Cover:

The Fantasy of the Middle Ages Larisa Grollemond, Bryan C. Keene, 2022-07-19 This abundantly illustrated book is an illuminating exploration of the impact of medieval imagery on three hundred years of visual culture From the soaring castles of Sleeping Beauty to the bloody battles of Game of Thrones from Middle earth in The Lord of the Rings to mythical beasts in Dungeons Dragons and from Medieval Times to the Renaissance Faire the Middle Ages have inspired artists playwrights filmmakers gamers and writers for centuries Indeed no other historical era has captured the imaginations of so many creators This volume aims to uncover the many reasons why the Middle Ages have proven so applicable to a variety of modern moments from the eighteenth through the twenty first century These medieval worlds are often the perfect ground for exploring contemporary cultural concerns and anxieties saying much more about the time and place in which they were created than they do about the actual conditions of the medieval period With over 140 color illustrations from sources ranging from thirteenth century illuminated manuscripts to contemporary films and video games and a preface by Game of Thrones costume designer Michele Clapton The Fantasy of the Middle Ages will surprise and delight both enthusiasts and scholars This title is published to accompany an exhibition on view at the J Paul Getty Museum at the Getty Center from June 21 to September 11 2022

The Great American Paperback Richard A. Lupoff, 2001 Few realized in 1938 that a revolution was about to take place A little book appeared in drugstores and on newsstands that would fit into the typical pocket There was no real binding no dust jacket just a colorful laminated cover by summer of 1939 everybody was buying and reading them Regarded by many as disposable distractions a few people put them aside and started collections that we realize are a valuable and collectible archive of American culture From the glittering images of square jawed cowboys to the gritty slum dwellers of social realism The Great American Paperback is a bountiful museum of over 600 brilliant covers each of them a miniature gem evocative of the fashions and attitudes of its era book jacket
