Disequilibria Robert Lunday,2023-02-15 Winner of the River Teeth Literary Nonfiction Prize Series *Disequilibria* Meditations on Missingness is a hybrid memoir that recounts the 1982 disappearance of the author's stepfather James Edward Lewis a pilot and Vietnam veteran Recounting his family's experiences in searching for answers Lunday interrogates the broader cultural and conceptual responses to the phenomenon of missingness by connecting his stepfather's case to other true life disappearances as well as those portrayed in fiction poetry and film In doing so *Disequilibria* explores the transience in modern life considering the military dependent experience the corrosive effects of war and the struggle to find closure and comfort as time goes by without answers **Interactivity, Collaboration, and Authoring in Social Media** Krystina Madej,2016-01-22 This book includes a short history of interactive narrative and an account of a small group

collaboratively authored social media narrative Romeo and Juliet on Facebook After Love Comes Destruction At the forefront of narrative innovation are social media channels speculative spaces for creating and experiencing stories that are interactive and collaborative Media however is only the access point to the expressiveness of narrative content Wikis messaging mash ups and social media Facebook Twitter YouTube and others are on a trajectory of participatory story creation that goes back many centuries These forms offer authors ways to create narrative meaning that reflects our current media culture as the harlequinade reflected the culture of the 18th century and as the volvelle reflected that of the 13th century Interactivity Collaboration and Authoring in Social Media first prospects the last millennium for antecedents of today s authoring practices It does so with a view to considering how today s digital manifestations are a continuation perhaps a reiteration perhaps a novel pioneering of humans abiding interest in interactive narrative The book then takes the reader inside the process of creating a collaborative interactive narrative in today s social media through an authoring experience undertaken by a group of graduate students The engaging mix of blogs emails personal diaries and fabricated documents used to create the narrative demonstrates that a social media environment can facilitate a meaningful and productive collaborative authorial experience and result in an abundance of networked personally expressive and visually and textually referential content The resulting narrative After Love Comes Destruction based in Shakespeare s Romeo and Juliet shows how a generative narrative space evolved around the students use of social media in ways they had not previously considered both for authoring and for delivery of their final narrative artifact
