Reverberation Machines The Later Plays And Essays:

Reverberation Machines Richard Foreman, 1985-01-01 Drama One of the most original minds ever to grace the American theater Richard Foreman is one of the few artists today whose inimitable style of presentation has retained its authentic status and momentum within the spirited trajectories of the avant garde Foreman describes his own work as a polyphonic theater in which all elements work to fragment each other so that the spectator is relatively free from empathy and identification and instead may savor the full playfulness of theatrical elements even though the subject matter of these plays is anguished and aggressive in the extreme My goal has always been to transcend very painful material with the dance of manic theatricality

Reverberation Machines Richard Foreman, 1985 *The American Play* Marc Robinson, 2009-01-01 In this brilliant study Marc Robinson explores more than two hundred years of plays styles and stagings of American theater Mapping the changing cultural landscape from the late eighteenth century to the start of the twenty first he explores how theater has and has not changed and offers close readings of plays by O'Neill Stein Wilder Miller and Albee as well as by important but perhaps lesser known dramatists such as Wallace Stevens Jean Toomer Djuna Barnes and many others Robinson reads each work in an ambitiously interdisciplinary context linking advances in theater to developments in American literature dance and visual art The author is particularly attentive to the continuities in American drama and expertly teases out recurring themes such as the significance of visibility He avoids neatly categorizing nineteenth and twentieth century plays and depicts a theater more restive and mercurial than has been recognized before Robinson proves both a fascinating and thought provoking critic and a spirited guide to the history of American drama

Acts of Resistance in Late-Modernist Theatre Richard Murphet, 2019-10-29 In Acts of

Resistance in Late Modernist Theatre Richard Murphet presents a close analysis of the theatre practice of two ground breaking artists Richard Foreman and Jenny Kemp active over the late twentieth and the early twenty first century In addition he tracks the development of a form of epileptic writing over the course of his own career as writer director Murphet argues that these three auteurs have developed subversive alternatives to the previously dominant forms of dramatic realism in order to re think the relationship between theatre and reality They write and direct their own work and their artistic experimentation is manifest in the tension created between their content and their form Murphet investigates how the works are made rather than focusing upon an interpretation of their meaning Through an examination of these artists we gain a deeper understanding of a late modernist paradigm shift in theatre practice
