Reversible Destiny Mafia Antimafia And The Struggle For Palermo:

Reversible Destiny Peter T. Schneider, Jane Schneider, 2003-03-13 *Reversible Destiny* traces the history of the Sicilian mafia to its nineteenth century roots and examines its late twentieth century involvement in urban real estate and construction as well as drugs. Based on research in the regional capital of Palermo, this book suggests lessons regarding secretive organized crime, its capacity to reproduce a subculture of violence through time, its acquisition of a dense connective web of political and financial protectors during the Cold War era, and the sad reality that repressing it easily risks harming vulnerable people and communities. Charting the efforts of both the judiciary and a citizen's social movement to reverse the mafia's economic, political, and cultural power, the authors establish a framework for understanding both the difficulties and the accomplishments of Sicily's multifaceted antimafia efforts.

Corruption and the Secret of Law Gerhard Anders, 2017-10-24 This volume presents an anthropological perspective on the hidden continuities between corruption and law. The authors argue that the two opposites, corruption and law, are inextricably linked with the possibility of the former already inscribed into the latter. Taking a critical stance towards the normative good governance agenda spearheaded by institutions such as Transparency International and the World Bank, this volume argues that by uncritically depicting corruption as an absolute evil, these anti-corruption programs disregard the close relationship that exists between corruption and state power. Addressing various aspects of a complex and ambivalent phenomenon, *Corruption and the Secret of Law* draws on studies from different parts of the world, including Burundi, China, Indonesia, Italy, Japan, Mexico, and the USA, and provides a valuable resource for students, researchers, and policy makers working in this area.

A Companion to the Anthropology of Politics David Nugent, Joan Vincent, 2008-04-15 This Companion offers an unprecedented overview of anthropology's unique contribution to the study of politics. Explores the key concepts and issues of our time, from AIDS, globalization, displacement, and militarization to identity, politics, and beyond. Each chapter reflects on concepts and issues that have shaped the anthropology of politics and concludes with thoughts on and challenges for the way ahead. Anthropology's distinctive genre, ethnography, lies at the heart of this volume.

Organized Crime: Culture, Markets and Policies Dina Siegel, Hans Nelen, 2007-12-16 Dina Siegel and Hans Nelen The term global organized crime has been in use in criminology since the mid 1990s. Even more general and abstract than its daughter terms, transnational or cross border organized crime, global organized crime seems to embrace the activities of criminal groups and networks all around the planet, leaving no

geographical space untouched The term appears to cover the geographical as well as the historical domain global has taken on the meaning of forever and ever Global organized crime is also associatively linked with globalisation The social construction of both terms in scientific discourse is in itself an interesting theme But perhaps even more interesting especially for academics trying to conduct empirical research in this area is the analysis of the symbolic and practical meaning of these concepts How should criminologists study globalisation in general and global organized crime in particular Which instruments and theoretical luggage do they have in order to conduct this kind of research The aim of this book is not to formulate simple straightforward answers to these questions but rather to give an overview of contemporary criminological research combining international national and local dimensions of specific organized crime problems The term global organized crime will hardly be used in this respect In other social sciences such as anthropology there is a tendency to get rid of vague and abstract terms which can only serve to confuse our understanding In our opinion criminology should follow this initiative

The Story-Takers Paula M. Salvio, 2017-10-31 *The Story Takers* charts new territory in public pedagogy through an exploration of the multiple forms of communal protests against the mafia in Sicily Writing at the rich juncture of cultural feminist and psychoanalytic theories Paula M Salvio draws on visual and textual representations including shrines to those murdered by the mafia photographs and literary and cinematic narratives to explore how trauma and mourning inspire solidarity and a quest for justice among educators activists artists and journalists living and working in Italy Salvio reveals how the anti mafia movement is being brought out from behind the curtains with educators leading the charge She critically analyses six cases of communal acts of anti mafia solidarity and argues that transitional justice requires radical approaches to pedagogy that are best informed by journalists educators and activists working to remember not only victims of trauma but those who resist trauma and violence

The War on Drugs and the Global Colour Line Kojo Koram, 2019-03-20 The War on Drugs has led to millions of people dead displaced and incarcerated Disproportionately enforced on oppressed races international drug prohibition has reinforced the colour line across the globe While laws prohibiting the production sale and use of particular drugs are presented as politically neutral and objective this collection reveals the racist impact of the War on Drugs across multiple continents and in numerous situations From racialised drugs policing at festivals in the UK to the necropolitical wars in Juarez Mexico and from the exchange of drug policing programs between the United States and Israel to the management of black bodies in Brazil this collection proves that the regulation of drugs and race is an international and intentional disaster Pushing forward the debate and activism led by groups such as Black Lives Matter and calling for radical changes in drug policy legislation and prison reform both nationally and internationally this collection cuts deep and rings true for all people fighting racism today
