Hoogsteden, Zuzana Diamant**

Reversing Asthma:

The Best of Health Sheldon Zerden, 2004 *The Best of Health* is a compilation and condensation of the best and most important health and nutrition books of the last 50 years. It shows the evolution of views on holistic health practices. It presents a balanced view of the natural health phenomenon including diet, exercise, vitamins, and minerals, specific diseases, and the mind-body connection. Its format of short synopses acts as a guide to the many books on nutrition available. This saves the consumer time and money; they read the condensations in *The Best of Health* and use them to evaluate which approaches they wish to study in more depth.

Asthma Treatment D. Olivieri, P.J. Barnes, S.S. Hurd, Giancarlo C. Folco, 2013-11-11

From the 19-29 May 1991 the NATO ASI Course *P*Asthma Treatment A *P* Multidisciplinary Approach was held in Erice on the rocky North West Coast of Sicily facing the ancient Phoenician shore of the African Continent. Sixty NATO sponsored participants arriving from many different European Countries, NATO members and non-attended the course. Qualified researchers from Europe and the United States held extensive lectures, short meetings, and small informal group discussions. Erice is a magical place which draws together people from different backgrounds and cultures under her Mediterranean charm, recreating the ancient Greek open-air discussion atmosphere. And so during the 10 days, gathering the extensive willingness of the senior investigators and the laudable enthusiasm of the younger participants was stimulated. All of the most recent findings in the biology and the pharmacology of Asthma were discussed initially behind closed doors, to be unhurriedly continued along the alleyways of the *Cittadella della Scienza* in Erice's small restaurants and on her deserted beaches. The texts collected here are testimony to the high quality of the investigators' contributions as well as their far-reaching interests. I think that a Director of such a Course would be adequately satisfied by merely considering the enthusiasm and high level involvement of every participant. He could not have been more satisfied after having considered the proceedings, summarizing the scientific content of the meeting.
