enclosed garden within the writings of medieval holy women and other female coded texts In so doing it presents the enclosed garden as generator of a powerfully gendered hermeneutic imprint within the medieval religious imaginary indeed as an alternative language used to articulate those highly complex female coded approaches to God that came to dominate late medieval religiosity The book also responds to the eco turn in our own troubled times that attempts to return the non human to the centre of public and private discourse The texts under scrutiny therefore invite responses as both literary and garden spaces where form often reflects content and where their authors are also diligent gardeners the apocryphal Lives of Adam and Eve for example the horticulturally inflected Hortus Deliciarum of Herrad of Hohenburg and the green philosophies of Hildegard of Bingen s Scivias the visionary writings of Gertrude the Great and Mechthild of Hackeborn collaborating within their Helfta nunnery the Middle English poem Pearl and multiple reworkings of the deeply problematic and increasingly sexualized garden enclosing the biblical figure of Susanna

Public Vision, Private Lives Mark Sydney Cladis, 2007 Mark S Cladis pinpoints the origins of contemporary notions of the public and private and their relationship to religion in the work of Jean Jacques Rousseau His thesis cuts across many fields and issues philosophy of religion women s studies democratic theory modern European history American culture social justice privacy laws and notions of solitude and community and wholly reconsiders the political cultural and legal nature of modernity in relation to religion Turning to Rousseau s Garden its inhabitants the Solitaires and the question of restoration and redemption that preoccupied much of Rousseau s thought Cladis examines how Rousseau addressed the tension between the joys and moral obligations of social engagement and the desire for solitude He was caught between two possibilities active involvement in the creation of an enlightened and humane society or extrication from social entanglements in favor of cultivating a spiritual interior life Yet Rousseau did not view this conflict as a desperate division Rather for him it was a moral struggle to be endured by those who had fallen from the Garden For this edition Cladis has added a substantive introduction that discusses the role of religion in contemporary democratic societies particularly in American public life Cladis proposes four models of thinking about religion in public and champions what he calls spiritual democracy a dynamic culturally specific and progressive democracy Cladis argues that spiritual democracy refers not only to a society s legal codes and principles but also to its democratic culture and symbols and its daily practices and institutions It encompasses the nation s character diverse identities and a distinctivel exchange between the nation s public vision and citizens complex private lives
