Revolt On Alpha C:

Revolt on Alpha C Robert Silverberg, 1966 *They're Here!* Hank Davis, Sean CW Korsgaard, 2023-08-01 THE ALIENS ARE AMONG US Where is everybody Nobel Prize winning physicist Enrico Fermi once asked after a discussion about the possibility of intelligent life elsewhere in the universe To sum up the Fermi Paradox if the billions of stars in our galaxy have planets with intelligent life on them why hasn't anyone visited us But maybe they have and we just haven't noticed and that's the way they want it And if they are here in secret why are they here Are they tourists Anthropologists perhaps Or journalists sending stories back about the quaint habits of the primitives Or maybe the extraterrestrial equivalent of hunters or fishermen Any odd disappearances in your neighborhood lately An enemy already within the gates Or a refugee seeking sanctuary Gourmets looking for exotic foreign food Alien criminals hiding out Alien cops looking for those alien criminals No missionaries at least not yet and there doesn't seem to be a Galactic Peace Corps They might happen to look close enough to human to pass or they might be masters of disguise Or they might be so incomprehensibly different that we don't even notice that they're here The secret visitors are revealed by such luminaries as Larry Niven Poul Anderson Spider Robinson William Tenn and more And if any alien visitors want to check out the local natives speculations herein feel free Please pay with local currency of course At the publisher's request this title is sold without DRM Digital Rights Management Praise for previous anthologies edited by Hank Davis About Time Troopers The editors mastery of the military SF and time travel subgenres is evident in their thoughtful selections Fans of literate speculative fiction will hope for more from these experts Publishers Weekly Cosmic Corsairs Who doesn't like space pirates Well their victims I guess but that's beside the point Hank Davis has a fine sense for choosing a wide mix of stories and this book is no exception No story is like another yet they manage to form a whole greater than the parts From sapient ships to piratical sibling rivalry pirate detectives to ingenious captives seeking freedom from alien biology to orbital mechanics the stories share some of the same elements pragmatic thinking moral complexity loyalty and betrayal Definitely a fun one Analog In Space No One Can Hear You Scream The 13 tales in this collection blend SF with horror to demonstrate the resiliency of both genres offers strong tales by the genre's best storytellers Library Journal First rate science fiction demonstrating how short stories can still entertain The Galveston County Daily News A Cosmic Christmas 2 You This creative and sprightly Christmas science fiction anthology spins in some surprising directions A satisfying read for cold winter evenings a great stocking stuffer for SF fans Publishers Weekly As Time Goes By As Time Goes By does an excellent job of exploring not only romance through time travel relationships enabled or imperiled by voyaging through time but the intrinsic romance of time travel itself The range of styles and approaches is as wide as the authors sensibilities and periods might suggest full of entertaining and poignant stories Alvaro Zinos Amaro Intergalactic Medicine Show com About Star Destroyers coedited by Christopher Ruocchio spectacular space battles and alien contacts themes of military ethics the uses of artificial intelligence and the limits of the capacity of the human mind it is the

human interactions and decisions that ultimately drive the stories will appeal to fans of military and hard science fiction and any readers fascinated by the possibilities of space travel Booklist stories of giant spaceships at war at peace and in the often gray areas between a worthy addition to a long tradition of ship based fiction and its authors portray captains arcane astrologers and civilian child passengers with equal depth It is recommended for fans of military SF and space adventure Publishers Weekly you'd probably expect some tight action filled space opera stories of giant space battles and there's some of that But there are also espionage stories rescue missions political conflicts alternate histories even a few humorous tales each author took the premise in a different direction if I had to identify one common feature to all the stories it would be that they're all fun Like it says big ships blowing things up What's not to like Analog [Nature & Science on the Pacific Coast](#), 1915 *The Oxford Companion to Twentieth-century Literature in English* Jenny Stringer, 1996 Survey of twentieth century English language writers and writing from around the world celebrating all major genres with entries on literary movements periodicals more than 400 individual works and articles on approximately 2,400 authors **The Man in the Maze** Robert Silverberg, 2015-07-28 A diplomat who successfully negotiated with intelligent aliens finds his loyalty to the human race tested in this novel by a Nebula Award winning author Richard Muller was an honorable diplomat who braved unimaginable dangers to make contact with the first known race of intelligent aliens But those aliens left a mark on him a psychic wound that emanates a telepathic miasma his fellow humans can neither cure nor endure Muller is exiled to the remote planet of Lemnos where he is left deeply embittered at the heart of a deadly maze until a new alien race appears seemingly intent on exterminating humanity Only Muller can communicate with them due to the very condition that has made him an outcast But will Muller stick his neck out for the people who so callously rejected him [Requiem](#) Robert A.
