Gratchev, Howard Mancing, 2017-11-06 This book is a unique scholarly attempt to examine Don Quixote from multiple angles to see how the re accentuation of the world's greatest literary hero takes place in film theatre and literature To accomplish this task eighteen scholars from the USA Canada Spain and Great Britain have come together and each of them has brought his/her unique perspective to the subject For the first time Don Quixote is discussed from the point of re accentuation i.e. having in mind one of the key Bakhtinian concepts that will serve as a theoretical framework A primary objective was therefore to articulate relying on the concept of re accentuation that the history of the novel has benefited enormously from the re accentuation of Don Quixote helping us to shape countless iconic novels from the eighteenth century and to see how Cervantes's title character has been reinterpreted to suit the needs of a variety of cultures across time and space *Up from Communism* John P.
