Revolution in Consciousness Frédéric Lionel,1984-01-01 **The Revolution of Consciousness** Frank M.

Wanderer,Ervin Kery,2015-05-24 The revolution of the Consciousness is taking place Now in the present moment There are no strategies no great leaders in this revolution only heroes who understand the evolutionary progress of the Consciousness and are open to allow the processes to take place in themselves **Marxism in the Chinese Revolution** Arif

Dirlik,2005-06-07 Representing a lifetime of research and writing by noted historian Arif Dirlik the essays collected here explore developments in Chinese socialism and the issues that have occupied historians of the Chinese revolution for the past three decades Dirlik engages Chinese socialism critically but with sympathy for the aspirations of revolutionaries who found the hope of social political and cultural liberation in Communist alternatives to capitalism and the intellectual inspiration to realize their hopes in Marxist theory The book s historical approach to Marxist theory emphasizes its global relevance while avoiding dogmatic and Eurocentric limitations These incisive essays range from the origins of socialism in the early twentieth century through the victory of the Communists in mid century to the virtual abandonment by century s end of any pretense to a socialist revolutionary project by the leadership of the Chinese Communist Party All that remains of the revolution in historical hindsight are memories of its failures and misdeeds but Dirlik retains a critical perspective not just toward the past but also toward the ideological hegemonies of the present Taken together his writings reaffirm the centrality of the revolution to modern Chinese history They also illuminate the fundamental importance of Marxism to grasping the flaws of capitalist modernity despite the fact that in the end the socialist response was unable to transcend the social and ideological horizons of capitalism *Global Marxism* Simin Fadaee,2024-09-10 A cutting edge exploration of how Marx s ideas have

been adopted and adapted by revolutionary thinkers in the Global South For much of the twentieth century the ideas of Karl Marx provided the backbone for social justice around the world But today the legacy of Marxism is contested with some seeing it as Eurocentric and irrelevant to the wider global struggle In *Global Marxism* Simin Fadaee argues that Marxism remains a living tradition and the cornerstone of revolutionary theory and practice in the Global South She explores the lives ideas and legacies of a group of revolutionaries who played an exceptional role in contributing to counter hegemonic change Figures such as Ho Chi Minh Kwame Nkrumah Ali Shariati and Subcomandante Marcos did not simply accept the version of Marxism that was given to them they adapted it to local conditions and contexts In doing this they demonstrated that Marxism is not a rigid set of propositions but an evolving force whose transformative potential remains enormous This global Marxism has much to teach us in the never ending task of grasping the changing historical conditions of capitalism and the complex world in which we live *From Ah Q to Lei Feng* Wendy Larson,2008-10-16 When Freudian sexual theory hit China in the early 20th century it ran up against competing models of the mind from both Chinese tradition and the new revolutionary culture Chinese theorists of the mind both traditional intellectuals and revolutionary psychologists steadily put

forward the anti Freud a mind shaped not by deep interiority that must be excavated by professionals but shaped instead by social and cultural interactions Chinese novelists and film directors understood this focus and its relationship to Mao s revolutionary ethos and much of the literature of twentieth century China reflects the spiritual qualities of the revolutionary mind From Ah Q to Lei Feng investigates the continual clash of these contrasting models of the mind provided by Freud and revolutionary Chinese culture and explores how writers and filmmakers negotiated with the implications of each model

The Consciousness Revolution Stanislav Grof,1999 The Shift Owen Waters,2006 Presents leading edge cultural studies and the author s discoveries about human chakras in order to demonstrate that we are in the midst of the biggest cultural shift of all times There is a perfect correlation between the stages of social progression the musical scale and the chakras From this we can now predict the inspiring and creative path of mankind s future Conflict, War and Revolution Paul Kelly,2022-01-04 Violence and war were ubiquitous features of politics long before the emergence of the modern state system Since the late 18th century major revolutions across the world have further challenged the idea of the state as a final arbiter of international order This book discusses ten major thinkers who have questioned and re shaped how we think about politics violence and relations between states Thucydides Augustine Machiavelli Hobbes Locke Rousseau Clausewitz Lenin and Mao and Schmitt Conflict war and revolution have generally been seen in political thought as problems to be managed by stable domestic political communities In different ways all the paradigmatic thinkers here acknowledge them instead as inevitable dimensions of human experience manifested through different ways of acting politically while yet offering radically distinct answers about how they can be handled This book dramatically broadens the canon of political thought by considering perspectives on the international system that challenge its historical inevitability and triumph Drawing on history theology and law as well as philosophy Paul Kelly introduces thinkers who challenge fundamentally the ways in which we should think about the nature and scope of political institutions and agents He illuminates many troubling contemporary conflicts with a critical and historical perspective This book is primarily intended for second year and upwards undergraduate students in general political theory and international theory and advanced international relations students Each chapter is also downloadable on its own for use in courses considering only some of the ten theorists covered Written in an accessible way Conflict War and Revolution will also interest advanced general readers with interests in the historical thought underpinnings of political ideas and today s international politics Marxism, Revolution and Utopia Herbert Marcuse,2014-03-26 This collection assembles some of Herbert Marcuse s most important work and presents for the first time his responses to and development of classic Marxist approaches to revolution and utopia as well as his own theoretical and political perspectives This sixth and final volume of Marcuse s collected papers shows Marcuse s rejection of the prevailing twentieth century Marxist theory and socialist practice which he saw as inadequate for a thorough critique of Western and Soviet bureaucracy and the development of his revolutionary thought towards a critique of the consumer society

Marcuse's later philosophical perspectives on technology, ecology, and human emancipation sat at odds with many of the classic tenets of Marx's materialist dialectic which placed the working class as the central agent of change in capitalist societies. As the material from this volume shows, Marcuse was not only a theorist of Marxist thought and practice in the twentieth century but also proves to be an essential thinker for understanding the neoliberal phase of capitalism and resistance in the twenty-first century. A comprehensive introduction by Douglas Kellner and Clayton Pierce places Marcuse's philosophy in the context of his engagement with the main currents of twentieth-century philosophy while also providing important analyses of his anticipatory theorization of capitalist development through a neoliberal restructuring of society. The volume concludes with an afterword by Peter Marcuse.
