Scandinavian Model Welfare States And Welfare Research:

The Scandinavian Model Robert Erikson, 1987 Part I of this book is devoted to the development of Scandinavian societies from agrarian societies to modern industrial economies and welfare states Three of the chapters in Part II analyse particular welfare problems those of inequality poverty and redistribution the final essay deals with women's position in the welfare state The papers included in Part III present theory and methods of welfare research **The Nordic Model of Welfare**

Niels Finn Christiansen, 2006 In international welfare state scholarship and political discourse the Nordic Model has become a standard concept But how precise is the concept and to what extent do the five Nordic countries fit into this overall pattern In this book a group of Nordic historians trace the historical origins and developments of welfare in the five Nordic countries The aim of this book is to modify the standard concept by emphasising both the common features and the variations between them As a work hypothesis the authors regard Norden as a model with five exceptions The articles in this book are all written by historians who have worked within the framework of a Nordic research project operating under the title *The Nordic Welfare Model a Historical Reappraisal* **Poverty and Low Income in the Nordic Countries** Björn Gustafsson, Peder J. Pedersen, 2018-05-08 This title was first published in 2000 The Nordic Council and the Nordic Council of Ministers decided in 1994 to initiate and finance a comparative study to understand better the structure and development of poverty in five Nordic countries Denmark Finland Iceland Norway and Sweden The main question posed is how the number of people living with low incomes has changed over time and what characterizes such households Since no official poverty line has been defined in the Nordic countries the comparative study examines a set of different definitions of poverty and analyzes the change in poverty rates and poverty composition in light of those different definitions *Economic Restructuring And Social Exclusion* Canterbury. Phillip Brown; Rosemary Crompton both of the University of Kent, 2020-04-03 This book is intended for undergraduate and postgraduate courses in social structure and political sociology as well as academic sociologists and libraries It should have significant appeal to researchers and students in European studies and others interested in European integration **Social Policy and the Labour Market** Philip R. de Jong, Theodore R. Marmor, 2019-07-23 First published in 1997 this volume examines why while mature welfare states are being trimmed and privatised new social welfare arrangements are implemented in formerly communist and newly industrialised countries The papers in this volume bring together these different worlds but also different academic approaches Micro economic analyses of social insurance and welfare systems are joined with broader political descriptions of social policy in such disparate regions as Scandinavia China Italy Poland and South Africa They give the reader a sense of the fundamental problem of finding a social welfare system that fits specific economic and cultural conditions This volume is the second in a series on international studies of issues in social security The series is initiated by the Foundation for International Studies on Social Security FISS One of its aims is to confront different academic approaches with each other and with public policy perspectives Another is to give analytic

reports of cross nationally different approaches to the design and reform of welfare state programs The present and next volume form a twin set in the sense that they both are based on selections from papers presented at seminars held by FISS in 1994 1996

Civil Society: Concepts, Challenges, Contexts Michael Hoelscher, Regina A. List, Alexander Ruser, Stefan Toepler, 2022-05-10 This volume is a collection of original essays prepared by colleagues collaborators and former students on the occasion of Helmut K Anheier's 65th birthday and retirement from the University of Heidelberg An internationally recognized pioneer of nonprofit and civil society studies Anheier focused his work on providing clarity around 1 civil society local and global observing its origins and trajectory and developing theories to explain it 2 the nonprofit sector and institutions within and extending from it including nonprofit organizations philanthropy and social investment and 3 culture as it relates to democracy and back to civil society The essays in this volume refer to these concepts and position them in the context of developments over the last two to three decades The volume is arranged in three sections The first section comprises essays that elucidate concepts and probe theories in the field The second section presents chapters discussing current global challenges and trends in the focal areas The third and final section then comprises country and regional case studies illustrating important aspects of the global challenges or theoretical issues of the two preceding sections A fascinating and up to date overview of key issues and trends in civil society and nonprofit research by an international collection of eminent scholars in these fields this book will be attractive to civil society and nonprofit sector researchers as well as a broader academic community of political scientists sociologists economists and cultural experts

European Gender Regimes and Policies Sevil Sümer, 2016-04-22 Comprehensive gender equality remains an unfulfilled goal in many European countries in spite of important developments and challenges to the traditional gendered division of labour This volume reviews recent advances of gender policies in different countries in the European Union together with recent empirical data on gender relations in the labour market and within families It adopts an international and interdisciplinary perspective through its use of qualitative and quantitative data and a comprehensive theoretical framework Particular attention is paid to the latest developments in the field of gender equality in different Scandinavian countries countries which are customarily seen as forerunners in the area The title culminates with an in depth discussion on the possibility of converging alternate gender policy regimes in Europe

Social Policy and Economic Development in the Nordic Countries O. Kangas, J. Palme, 2005-07-01 This volume examines the relationship between Nordic social policy and economic development from a comparative perspective It identifies the driving forces behind the development of the Nordic welfare model and the problems and dilemmas the model is facing at present The book also traces the link between democratization and social policy drawing attention to the role of the state and non governmental organizations Social Policy and Economic Development in the Nordic Countries examines Nordic social policies on unemployment social care family education and health care policies and reviews future challenges of the welfare state in the information society

Emerging Trends in Social Policy from the South Ilcheong Yi, Alexandra Kaasch, Kelly Stetter, 2024-05-21 Drawing on international case studies from emerging economies and developing countries including South Africa India Egypt Morocco Jordan Tunisia Indonesia China and Russia this book examines the rise nature and effectiveness of recent developments in social policy in the Global South By analysing these new emerging trends the book aims to understand how they can contribute to meaningful change and whether they could offer alternative solutions to the social economic and environmental policy challenges facing low income countries within a contemporary global context It pays particular attention to reforms and innovations relating to the objectives of the 2030 Agenda for Sustainable Development including the move away from a welfare state towards a welfare multitude in which new actors such as civil

society organisations play an increasingly important role in social policy **Social Indicators** Anthony Barnes Atkinson, 2002 This book describes the Action Plans on Social Inclusion submitted to the European Union by national governments in June 2001 and investigates the indicators that can be used to assess social progress **Social Indicators** Tony Atkinson, Bea Cantillon, Eric Marlier, Brian Nolan, 2002-03-07 Social indicators are an important tool for evaluating a country's level of social development and for assessing the impact of policy Such indicators are already in use in investigating poverty and social exclusion in several European countries and have begun to play a significant role in advancing the social dimension of the European Union as a whole The purpose of this book is to make a scientific contribution to the development of social indicators for the purposes of European policy making It considers the principles underlying the construction of policy relevant indicators the definition of indicators and the issues that arise in their implementation including that of the statistical data required It seeks to bring together theoretical and methodological methods in the measurement of poverty social exclusion with the empirical practice of social policy The experience of Member States is reviewed including an assessment of the National Action Plans on Social Inclusion submitted for the first time in June 2001 by the fifteen EU governments The key areas covered by the book are poverty including its intensity and persistence income inequality non monetary deprivation low educational attainment unemployment joblessness poor health poor housing and homelessness functional illiteracy and innumeracy and restricted social participation In each case the book assesses the strengths and weaknesses of different indicators relevant to social inclusion in the European Union and makes recommendations for the indicators to be employed Indicators for Social Inclusion in the European Union is being published at a critical stage in the evolution of the social agenda of the European Union It is hoped that the report will play a role in widening public debate about the social dimension of Europe and that it will be of value to the social partners to non governmental and grass roots organizations and to those living in poverty and social exclusion It seeks to provide both a constructive background document at a crucial juncture in the evolution of the social dimension of the European Union and a reference work of continuing value Contesting Nordicness Jani Marjanen, Johan Strang, Mary Hilson, 2021-12-20 The terms Nordic and Scandinavian are widely used to refer to the politics society and culture of Denmark Finland Iceland Norway and Sweden But why have people felt the need to frame things as Nordic and why has the adjective Nordic become so prominent This book adopts a rhetorical approach analysing the speech acts which have shaped the meanings of the term What do the different terms Nordic and Scandinavian have in common and how have the uses of these terms changed in different historical periods What accounts for the apparent upsurge in uses of the rhetoric of Nordicness in the 2010s Drawing on eight case studies of the uses of Nordic and Scandinavian from the nineteenth century to the present day the book explores the appeal and the flexibility of the rhetoric of Nordicness in relation to race openness gender equality food crime fiction Nordic co operation and the Nordic model Arguing that Nordic and Scandinavian are flexible and contested

concepts that have been used in different often contradictory and inherently political ways the book suggests that the usage of the term has evolved from a means of creating a cultural community to forging political co operation and further to marketing models in politics and popular culture The rhetorical approach also shows how many of the hallmarks of Nordic political culture such as the Nordic model Nordic gender equality or Nordic openness are more recent conceptualisations than usually assumed As such the book argues for the need to turn attention away from analysing the different components of Nordicness into studying how when and for what purpose different features were made Nordic

Happiness Across Cultures Helaine Selin,Gareth Davey,2012-02-29 Different cultures experience happiness differently Traditionally the West is considered materialistic and happiness is said to come from achievement and acquisition The East is said to be more people oriented where happiness is a result of deep personal interactions Thus poor people can be happier in the East than the West because they are not so concerned with possession and more with society This book considers happiness and quality of life in non Western countries and cultures Its coverage is diverse and spans the breadth of the non Western world revealing unique perspectives of happiness and life quality embedded in rich cultural traditions and histories

Education, Equity, Economy: Crafting a New Intersection George W. Noblit,William T. Pink,2015-11-17 This volume will introduce the readers to an alternative nexus of education equity and economy pointing to economies and educations that promote a less stratified and exploitive world and as the chapter authors demonstrate this view has a wide range of applications from technology mathematics to environmental catastrophes and indigenous cultures This first volume in the new book series not only introduces the series itself but also several authors whose chapters that appear here presage the in depth analysis that will be offered by their volumes in the series Education is invoked repeatedly in the class warfare that pits the population against the elites as the investment that makes the difference in terms of both policy and individual commitment in the economy The economy in this scenario is competitive accumulative exploitive and stratifying implying education should mirror this and prepare people to fit this economy However education has other historic goals of developing common cultures national identities and civic engagement that belie this form of economic determinism This volume and the series will explore this new nexus of economy and education with equity
