Scarlet Lancer John Luard:

The Scarlet Lancers James Lunt, 1993-03-01 The 16th 5th Queen's Royal Lancers have long had the reputation of being one of the most efficient and at the same time one of the least flamboyant of the British cavalry regiments. The regiment as it exists today is the product of the amalgamation after the Great War of two cavalry regiments whose combined battle honours bear witness to their distinguished services. It was first raised as the Royal Dragoons of Ireland and more recently has returned in triumph from the Gulf War prior to which not one member of the regiment had seen action apart from tours in Northern Ireland. In writing this history of the regiment he once commanded, General Lunt offers evidence of the continuing value of tradition and esprit de corps on which the regimental system of the British Army has for so long been based.

Scarlet Lancer James D. Lunt, 1964 Survey of pre-Victorian British army life during the years 1806-1840 traced through the career of Brigadier John Luard who fought at Waterloo. *Letters from the Battle of Waterloo* Gareth Glover, 2018-10-30 Waterloo is probably the most famous battle in military history. Thousands of books have been written on the subject but mysteries remain and controversy abounds. By presenting more than 200 previously unpublished accounts by Allied officers who fought at the battle, this collection goes right back to the primary source material. In the letters, the Allied officers recount where they were and what they saw. Gareth Glover has provided historical background information but lets the officers speak for themselves as they reveal exactly what happened in June 1815. Originally sent to and at the request of Captain W. Siborne, then in the process of building his famous model of the battle, these letters have remained unread in the Siborne papers in the British Library. A small selection was published in *Waterloo Letters* in 1891 but much of vast historical significance did not see the light then and has remained inaccessible until now. Glover now presents this remarkable collection which includes letters here by Major Baring, George Bowles, Edward Whinyates, John Gurwood and Edward Cotton as well as letters by Hanoverian and King's German Legion officers. This is a veritable treasure trove of material on the battle and one which will mean that every historian's view of the battle will need correcting. **British Cavalryman 1792-1815**

Philip Haythornthwaite, 2012-04-20 In the campaigns of the French Revolutionary and Napoleonic Wars, the deserved reputation of the British infantry has tended to overshadow the contribution of the cavalry, but in fact they did form an integral part of the army carrying out duties crucial to the success of other arms. *British Cavalryman 1792-1815* recounts what these duties were and examines the men who performed them. The different regiments of the cavalry are listed and some of the arm's more exotic or professional corps such as the King's German Legion examined. *Waterloo: Myth and Reality* Gareth Glover, 2014-09-01 A radical re-assessment. This is fascinating stuff, a most useful addition to the Waterloo and indeed Napoleonic bookshelf. *Military Modelling Magazine* More has probably been written about the Waterloo campaign than almost any other in history. It was the climax of the Napoleonic Wars and forms a watershed in both European and world history. However, the lethal combination of national bias, willful distortion and simple error has unfortunately led to the

constantly regurgitated traditional accepted version being significantly wrong regarding many episodes in the campaign. Often repeated claims have morphed into established fact and it is high time that these are challenged and finally dismissed. Gareth Glover has spent a decade uncovering hundreds of previously unpublished eyewitness accounts of the battle and campaign which have highlighted many of these myths and errors. In this groundbreaking history based on extensive primary research of all the nations involved he provides a very readable and beautifully balanced account of the entire campaign while challenging these distorted claims and myths and he provides clear evidence to back his version of events. His thoughtful reassessment of this decisive episode in world history will be stimulating reading for those already familiar with the Napoleonic period and it will form a fascinating introduction for readers who are discovering this extraordinary event for the first time. An enjoyable and informative review of the battle that shaped Europe for the next two centuries. Firetrench

Salamanca 1812 Yale University Press, Rory Muir, 2001-01-01. In separate commentary sections he evaluates the sources and indicates the inevitable contradictions and gaps in evidence that have emerged during his research. Complete with maps, battleground plans, line drawings and photographs, this compelling book provides acute analysis of a single day in Salamanca that changed European history. Jacket **The Waterloo Archive Volume I: British Sources** Gareth Glover, 2010-01-30. Originally published in 1900, this book features excerpts from Alexander Cavali Mercer's account of the battle of Waterloo. As an artillery officer at the sharp end, this is his eye witness account of the events that led to Napoleon's final defeat in June 1815. This is the contemporary view of how the events were conveyed to the public of Great Britain. Featuring original engravings from the Illustrated London News and the Graphic and many paintings from the era, this book was written during the height of the British Empire and the triumphalist mood of the day is reflected in the tone of the text. This detailed military history provides an echo of the contemporary attitudes to this turbulent time which shaped the destiny of the British Empire. This book is part of the Military History From Primary Sources series, a new military history range compiled and edited by Emmy Award winning author and historian Bob Carruthers. The series draws on primary sources and contemporary documents to provide a new insight into the true nature of warfare. The series consultant is David McWhinnie, creator of the award winning PBS series *Battlefield*. **Silhouette**, 1965. **The Publishers' Trade List Annual**, 1971. **Wellington's Army in the Peninsula, 1808-1814** Michael Glover, 1977. **Adult Catalog: Subjects** Los Angeles County Public Library, 1970. **Imperial Co-histories** Julie F. Codell, 2003. This book explores the creation of imperial identities in Britain and several of its colonies: South Africa, India, Australia, Wales, and the ways in which the Victorian press around the world shaped and reflected these identities. The concept of co-histories, borrowed from Edward Said and Frantz Fanon, helps explain how the press shaped the imperial and national identities of Britain and of the colonies into co-histories that were thoroughly intertwined and symbiotic. Exploring a variety of press media, this book argues that the press was a site of resistance and revision by colonized authors and publishers as well as a force of colonial authority for the British government, editors, and

publishers who projected a view of the empire to their British colonial and colonized readers Topics include The Journal of Indian Art and Industry produced by the British art schools in India women s periodicals Indian writers in the British press The Imperial Gazetteer published in Scotland the rise of telegraphic news agencies the British press s images of China seen through exhibitions of its art the Tory periodical Blackwood s Magazine and the Imperial Press Conference of 1909
