Scenes From The Anti Nazi War:

Scenes From Anti-Nazi War Basil Davidson,1981 In this lively and instructive memoir of his experience with the anti Nazi underground in Italy and Yugoslavia during World War II Basil Davidson throws needed light on a much neglected part of European history Sent to the area as a representative of the British Special Operations Executive SOE he is able to recount at first hand the intense determination of the revolutionary partisans who hoped that their sacrifices would lead to a new society and the equally determined policy of the Allies to suppress them Special Operations Europe Basil Davidson,1980-01-01

Unpatriotic History of the Second World War James Hartfield,2012-09-28 The Second World War was not the Good War of legend James Hartfield explains that both Allies and Axis powers fought for the same goals territory markets and natural resources

Turning the Tide Noam Chomsky,2015-09-20 For decades Noam Chomsky has been considered one of the most important critics of American s foreign policy in Central and Latin America and yet Turning the Tide is one of his only written works which makes that region its sole focus At last back in print after almost thirty years Turning the Tide explores such neglected but vital issues as Jimmy Carter s interventions in El Salvador the violation of human rights in Nicaragua and Guatemala and American involvement with death squads in many countries including Bolivia and El Salvador For all activists and scholars whose work focuses on Central and Latin America Turning the Tide remains essential

Anti-Leftist Politics in Modern World History Philip B. Minehan,2021-11-04 Systemic and political hostility against the left real and contrived has been a key yet under recognized aspect of the history of the modern world for the past two hundred years By the 1820s the new exploitative and destabilizing character of capitalist industrial production and its accompanying market liberalizations began creating necessities among the working classes and their allies for the new self protective politics of socialism But it is evident that for the new economic system to sustain itself such oppositional politics that it necessitated had to be undermined if not destroyed by whatever means necessary Through the imperialism of the later 19th century and with significant variations this complex and often highly destructive dialectical syndrome expanded worldwide Liberals conservatives extreme nationalists fascists racists and others have all repeatedly come aggressively and violently into play against socialist oppositions In this book Philip Minehan traces the patterns of such hostility and presents numerous crucial examples of it from Britain France Germany and the United States the British in India European fascism the United States and Britain as they operated in China and Indochina from Kenya Algeria and Iran and from Central and South America during the Cold War In the final chapters Minehan addresses the post Cold War US led triumphalist wars in the Middle East the ensuing refugee crises neo fascism and anti environmentalist politics to show the ways that the syndrome within which anti leftist antagonism emerges in its neoliberal phase since the 1970s remains as self destructive and dangerous as ever

through the study of compelling films **Powell and Pressburger** Ellen Z. Whitton, 2025-11-10 This book offers a new perspective on the renowned filmmaking duo The Archers Michael Powell and Emeric Pressburger through its examination of their engagement with history and its representation on screen Usually celebrated for their vibrant aesthetics and bold narratives Powell and Pressburger have rarely been explored through the lens of realism or historiophoty This study addresses this gap through the in depth analysis of three of their war films The Spy in Black 1939 The Life and Death of Colonel Blimp 1943 and The Battle of the River Plate 1956 It demonstrates that the pair were committed to fair historical representations and authenticity and should be considered as early filmmaker historians for their contribution to public understandings of the past To interrogate this aspect of their partnership this book introduces a new methodological framework grounded in the structuralist theories of Roland Barthes and Brian McFarlane while influenced by Hayden White and New Cinema History It balances close textual analysis with investigations into production context and reception history offering a more holistic approach to understanding how authenticity was constructed on screen and received by audiences Through these case studies the book highlights how The Archers employed research practices like archival work expert consultation and on location visits that mirror those of traditional historians In doing so they crafted historically rich films that shaped public memory demonstrating filmmaking practices that are now common among contemporary filmmakers in that genre Beyond reassessing this aspect of The Archers legacy this methodology offers a practical framework for analysing and creating historical authenticity on screen The Third Reich on Screen, 1929-2015 Bob Herzberg, 2016-11-23 For more than 80 years images of the Third Reich have appeared in newsreels documentaries and fictional stories from comedies and musicals to war horror and science fiction films Many of these representations say as much about the filmmakers as they do about Nazism itself Hollywood often used the brutal Nazi as an all purpose villain in escapist adventures set during and after the war but just as often used him to attack the evil he symbolized Drawing on studio files correspondence of the Production Code office and the writings of noted historians and critics this book describes the making of many such films produced in Hollywood Nazi Germany the Soviet Union and Eastern Bloc nations Biographies of several military and political figures who served as the basis for Nazi characters compare the cinematic and real life versions The Hitler Filmography Charles P. Mitchell, 2015-07-11 From the time his Nazi regime launched World War II to the present Adolf Hitler has frequently been depicted on film He was largely ridiculed at first since laughter was a powerful weapon and morale booster for nations at war Later representations were more somber and realistic yet Hitler s image never escaped the undertone of scorn This book concentrates exclusively on portrayals of Hitler in feature films and television miniseries The filmography covers films with a factual historical storyline fictional stories alternate histories parodies and films where actors playing Hitler have a cameo Each entry provides production credits an annotated cast list an analysis and synopsis of the film an evaluation of the actor playing Hitler in terms of the strengths and weaknesses of his portrayal and representative quotations from the film

White House John Bellamy Foster, 2017-10-23 With a foreword by Robert W McChesney Cover **Anti-Heimat Cinema** Ofer Ashkenazi, 2020-09-08 Anti Heimat Cinema The Jewish Invention of the German Landscape studies an overlooked yet fundamental element of German popular culture in the twentieth century In tracing Jewish filmmakers contemplations of Heimat a provincial German landscape associated with belonging and authenticity it analyzes their distinctive contribution to the German identity discourse between 1918 and 1968 In its emphasis on rootedness and homogeneity Heimat seemed to challenge the validity and significance of Jewish emancipation Several acculturation seeking Jewish artists and intellectuals however endeavored to conceive a notion of Heimat that would rather substantiate their belonging This book considers Jewish filmmakers contribution to this endeavor It shows how they devised the landscapes of the German Homeland as Jews namely as acculturated outsiders within Through appropriation of generic Heimat imagery the films discussed in the book integrate criticism of national chauvinism into German mainstream culture from World War One to the Cold War Consequently these Jewish filmmakers anticipated the anti Heimat film of the ensuing decades and functioned as an uncredited inspiration for the critical New German Cinema Hollywood and Hitler, 1933-1939 Thomas Doherty, 2013-04-02 Between 1933 and 1939 representations of the Nazis and the full meaning of Nazism came slowly to Hollywood growing more ominous and distinct only as the decade wore on Recapturing what ordinary Americans saw on the screen during the emerging Nazi threat Thomas Doherty reclaims forgotten films such as Hitler s Reign of Terror 1934 a pioneering anti Nazi docudrama by Cornelius Vanderbilt Jr I Was a Captive of Nazi Germany 1936 a sensational true tale of a Hollywood girl in Naziland and Professor Mamlock 1938 an anti Nazi film made by German refugees living in the Soviet Union Doherty also recounts how the disproportionately Jewish backgrounds of the executives of the studios and the workers on the payroll shaded reactions to what was never simply a business decision As Europe hurtled toward war a proxy battle waged in Hollywood over how to conduct business with the Nazis how to cover Hitler and his victims in the newsreels and whether to address or ignore Nazism in Hollywood feature films Should Hollywood lie low or stand tall and sound the alarm Doherty s history features a cast of charismatic personalities Carl Laemmle the German Jewish founder of Universal Pictures whose production of All Quiet on the Western Front 1930 enraged the nascent Nazi movement Georg Gyssling the Nazi consul in Los Angeles who read the Hollywood trade press as avidly as any studio mogul Vittorio Mussolini son of the fascist dictator and aspiring motion picture impresario Leni Riefenstahl the Valkyrie goddess of the Third Reich who came to America to peddle distribution rights for Olympia 1938 screenwriters Donald Ogden Stewart and Dorothy Parker founders of the Hollywood Anti Nazi League and Harry and Jack Warner of Warner Bros who yoked anti Nazism to patriotic Americanism and finally broke the embargo against anti Nazi cinema with Confessions of a Nazi Spy 1939 **The Wolf at the Door** Geoffrey Cocks, 2004 Discovers a Holocaust subtext in Kubrick s films culminating in his 1980 adaptation of Stephen King s horror novel The Shining Maintains that this is reflected in his depiction of harsh struggles with and over power and violence

Several of his films deal with war and state power. *The Shining* is seen as an artistic and philosophical response to the horrors of World War II. Among the influences on the filmmaker are Hilberg's *The Destruction of the European Jews*, Kubrick's Jewish past, and his early years that were affected by fascism and war. Kubrick's marriage into an artistic German family also contributed to his preoccupation with the history of Nazi Germany and the Holocaust, which were indirectly reflected in his oeuvre.
