The Power of Scent Hanns Hatt,Regine Dee,2025-07-07 Nothing is possible without the nose We breathe smell and taste with it Smells warn us of dangers and scents can awaken memories and feelings All without including the mind The nose decides who we find seductive or who we simply can t smell We often only realize how important smell is when illnesses like corona rob us of this sense Everyone s scent preferences are individual Just like our own scent which sends out messages and helps us find a partner The exciting thing is We don t just perceive these messages with our nose scents have an effect on the whole body As the latest scientific research has shown they can also accelerate the healing of wounds change the heartbeat and improve hair growth and digestion They also influence the brain we may become calmer or more active Even tumor cells react to scents and reduce their growth Conversely tumor cells themselves emit odorous substances which trained dogs can recognize This book is a translation of the original German edition *Die Lust am Duft* by Hanns Hatt and Regine Dee published by Springer Verlag GmbH DE in 2023 The translation was done with the help of an artificial intelligence machine translation tool The authors subsequently revised and added new content and the text was copy edited to enhance its style

Monkeybrain Johnny Oye,2014-09-12 MonkeyBrain evolved from many years of working with hundreds of clients in the wellness industry as a lifestyle fitness coach helping others improve their health and physiques Over time I began to see that emotional well being also had a direct affect on our physical health For many years I recognized undeniable emotional patterns among many of my clients Upon reflection I also noticed these patterns in myself One pattern that became apparent time and again was that most of us tend to spiral into negative thinking when we are stressed I could see that we all react to imbalances and stress in much the same way It almost seemed

that we had an addiction to stress and we were always looking for the worst case scenario thinking of the problem instead of the solution I wanted to know why we do this and more importantly how we can change these faulty patterns My questions were Why do we tend to relive memories of stress fear and drama more often than those of love and joy Why does it feel like a compulsion to share our bad day our physical pain or our daily drama And why does the brain recall memories without our permission I began to call this way of thinking MonkeyBrain My search to find the MonkeyBrain Fix led me to study the latest neuroscience and mind body medicine What I discovered was not only surprising but also life changing MonkeyBrain shares years of discovery that began when I started exploring the relationships between our brain our body and our spirit It connects all the dots with mental physical and spiritual connections that make sense and includes worthy projects for improving all areas of life Also included is a template and journal for everyone to use It is a twenty one day challenge
