Battleground: Schools Sandra Mathison, E. Wayne Ross, 2007-12-30 No topic sparks an argument faster among the American public even with relatively apolitical people than how their children are taught In schools across the country school boards parents teachers and students themselves debate issues ranging from charter schools to the first amendment rights of students to the efficacy of the No Child Left Behind Act School districts in Georgia and Pennsylvania have seen battles over the teaching of evolution places as diverse as Colorado Washington and Kentucky have had debates over how best to protect children while at school *Battleground Schools* provides an in depth balanced overview of these controversial topics and enables teachers students and their parents to better understand the foundations of these conflicts The Vietnam Veteran

a wide range of categories anthropology and folklore art and architecture history literature music political science popular culture psychology religion science and technology and sociology School Life ,1947 Managing Mass Education, and the Rise of Modern and Financial Management Ian Waitt,2023-09-01 This book skilfully intertwines three main themes in the growth and expression of management The essential component to understanding of context is established through a stark exposition of the conditions of society in the 18th and 19th centuries From these is drawn the until now unrecognised precursor of major change the establishment of mass education This was achieved through the wayward genius of the charismatic teacher Joseph Lancaster who despite his struggles with the Church and his own foibles was able through his attractively cheap plan and dominant guiding idea to bring mass education to Britain then Europe the USA the Americas and much of the world enabling the institution of the first and second industrial revolutions This occurred in parallel with the remarkable growth of what was to become modern and financial management The practical case studies also included in the text usefully highlight the merits and demerits of major societal transformations An invaluable and essential contribution to the creation of a new paradigm for Management Studies this important exposition with its emphasis on the human element and experience is relevant to all students teachers and practitioners of management from school college and university levels to the postgraduate and experienced management practitioner State Course of Study for the Elementary Schools in the State of Missouri, 1919 Missouri. Department of Education,1919 **The Work of the Public Schools, Rochester, New York** Rochester (N.Y.). Board of Education,1928 **Los Angeles School Journal** ,1928 A Charge Against Society Mary John,1997 Children in Charge concentrates on the theme of children s rights reflecting the increasing knowledge in the area The series uses the United Nations Convention of the Child as a benchmark **A Library of the World's Best Literature - Ancient and Modern - Vol. XLV (Forty-Five Volumes); Synopses of Famous Books & General Index** Charles Dudley Warner,2009-01-01 It would be enough to recommend this astonishing 45 volume set first published in 1896 if it were merely a wonderfully massive compilation of the world s best writings from the world s best authors up until the advent of the 20th century But A Library of the World s Best Literature is so much more than that For this marvelous collection represents the evolution of human thought the evolution of human civilization even as seen through the mind of one of the most important if sadly almost forgotten literary figures of the 19th century Popular American essayist novelist and journalist CHARLES DUDLEY WARNER 1829 1900 was renowned for the warmth and intimacy of his writing which encompassed travelogue biography and autobiography fiction and more and influenced entire generations of his fellow writers Here the prolific writer turned editor for his final grand work a splendid survey of global literature classic and modern and it s not too much to suggest that if his friend and colleague Mark Twain who stole Warner s quip about how everybody complains about the weather but nobody does anything about it had assembled this set it would still be hailed today as one of the great achievements of the book world And so it still deserves to be Arranged not chronologically but alphabetically mostly under

the names of authors but in some cases of literatures or special subjects such as Icelandic literature or Arthurian legend this set is no dry reference work These eminently browsable volumes available through Cosimo for the first time in decades in both paperback and hardcover editions are meant to be read and enjoyed by anyone who loves the written word Volume 45 features more synopses of notable works from Adam Bede by George Eliot to Zury The Meanest Man in Spring County by Joseph Kirkland including many not previously referenced in the set but highlighted as well worth a serious reader's time and attention This volume also includes a General Index to the 45 volume set
