**Hans Scharoun and China** Liyang Ding, 2024-11-15 This book presents the first systematic overview and analysis of the deep connection between Scharoun and China offering insights into East West cultural exchange and enriching existing understandings of modernism The German architect Hans Scharoun has typically been pigeonholed as a leading figure in expressionist architecture As this book shows however this understanding oversimplifies the multifaceted nature of Scharoun s career and overlooks his central role within the tradition of Neues Bauen The book begins with Scharoun s early interactions with East Asian architects in the 1930s his active involvement in the Chinese Werkbund 1941 42 and his extensive research on Chinese architecture and urban culture in the mid 1940s and 1950s The book then examines Scharoun s postwar architectural designs and urban planning projects most notably the Kollektivplan the Volksschule Darmstadt and the Berliner Philharmonie which incorporated original spatial and urbanistic concepts such as Stadtlandschaft Raum der Mitte and aperspectival space inspired to varying degrees by Chinese architectural and urban planning traditions The book will appeal to scholars and students of modern architecture urban planning and architectural theory especially those interested in modernism and East West cultural exchange Hans Scharoun, 1893-1972 Eberhard Syring, Jörg C.

**Making Dystopia** James Stevens Curl,2018-08-23 In Making Dystopia distinguished architectural historian James Stevens Curl tells the story of the advent of architectural Modernism in the aftermath of the First World War its protagonists and its astonishing almost global acceptance after 1945 He argues forcefully that the triumph of architectural Modernism in the second half of the twentieth century led to massive destruction the creation of alien urban landscapes and a huge waste of resources Moreover the coming of Modernism was not an inevitable seamless evolution as many have insisted but a massive unparalleled disruption that demanded a clean slate and the elimination of all ornament decoration and choice Tracing the effects of the Modernist revolution in architecture to the present Stevens Curl argues that with each passing year so called iconic architecture by supposed star architects has become more and more bizarre unsettling and expensive ignoring established contexts and proving to be stratospherically remote from the aspirations and needs of humanity In the elite world of contemporary architecture form increasingly follows finance and in a society in which the haves have more and more and the have nots are ever more marginalized he warns that contemporary architecture continues to stack up huge potential problems for the future as housing costs spiral out of control resources are squandered on architectural bling and society fractures This courageous passionate deeply researched and profoundly argued book should be read by everyone concerned with what is around us Its combative critique of the entire Modernist architectural project and its apologists will be highly controversial to many But it contains salutary warnings that we ignore at our peril And it asks awkward questions to which answers are long overdue
