Schoenberg And His Circle A Viennese Portrait:

Schoenberg and His Circle Joan Allen Smith, 1986 **Lives of the Great Composers 3e** Harold C Schonberg, 1997-04 Schonberg brings the reader closer to an identification with the composers he discusses and thus closer to an understanding of their music The book consequently places more emphasis on biographical details and less upon technical analysis of the music *Nineteenth-Century Chamber Music* Stephen Hefling, 2004-03-01 Nineteenth Century Chamber Music proceeds chronologically by composer beginning with the majestic works of Beethoven and continuing through Schubert Spohr and Weber Mendelssohn Schumann Brahms the French composers Smetana and Dvor k and the end of the century pre modernists Each chapter is written by a noted authority in the field The book serves as a general introduction to Romantic chamber music and would be ideal for a seminar course on the subject or as an adjunct text for Introduction to Romantic Music courses Plus musicologists and students of 19th century music will find this to be an invaluable resource *The Harvard Biographical Dictionary of Music* Don Michael Randel, 1996 Biographical dictionary emphasizes classical and art music also gives ample attention to the classics as well as Jazz Blues rock and pop and hymns and showtunes across the ages

poetics to psychology philosophy and economics The book demonstrates that the persistence of depth metaphors in musicology and music theory today is an outgrowth of their essential role in articulating and transmitting Germanic cultural values While musical depth metaphors have historically served to communicate German nationalist sentiments Watkins shows that an appreciation for the broad connotations of those metaphors opens up exciting new avenues for interpretation

The Life and Twelve-Note Music of Nikos Skalkottas Eva Mantzourani, 2016-03-03 Nikos Skalkottas is perhaps the last great undiscovered composer of the twentieth century In the 1920s he was a promising young violinist and composer in Berlin and a student of Schoenberg who included him among his most gifted pupils It was only after his return to Greece in 1933 that Skalkottas became an anonymous and obscure figure working in complete isolation until his death in 1949 Most of his works remained unpublished and unperformed during his lifetime and although he is largely known for his folkloristic tonal pieces Skalkottas in fact concentrated predominantly on developing an idiosyncratic dodecaphonic musical language Eva Mantzourani provides here a comprehensive study of this fascinating yet under researched composer The book lavishly illustrated with musical examples is divided into three parts Part I comprises a critical biography that by drawing extensively on his letters and other writings reappraises the image of Skalkottas with which we are often presented The main focus of the book however is on Skalkottas's twelve note compositional processes since these characterize the majority of his output and are neither well known nor fully understood Part II presents the structural and technical features of his twelve note technique particularly the different types of sets and their manipulation and his approach to musical forms Part III consists of

analytical case studies of several works presented chronologically which thus provide a diachronic framework within which Skalkottas's dodecaphonic compositional development can be more effectively viewed. This book underlines Nikos Skalkottas's importance as a composer with a distinctive artistic personality whose work contributed to the development of twelve note compositional practice and who deserves a more significant position within the Western art music canon than that to which he is often assigned.

Music in the Early Twentieth Century Richard Taruskin, 2006-08-14

Taruskin discusses modernism in Germany and France as reflected in the work of Mahler, Strauss, Satie and Debussy; the modern ballets of Stravinsky; the use of twelve tone technique in the years following World War I; the music of Charles Ives; the influence of peasant songs on Bela Bartok; Stravinsky's neo-classical phase and the real beginnings of 20th century music; the vision of America as seen in the works of such composers as W.C. Handy, George Gershwin and Virgil Thomson; and the impact of totalitarianism on the works of a range of musicians from Toscanini to Shostakovich.
