Second City Politics Democratic Processes And Decision Making In Birmingham:

Second City Politics Kenneth Newton,1976 **Crisis In Urban Government : A Study Of Decision-Making** N. R Inamdar,1991 **The Oxford Handbook of Urban Politics** Karen Mossberger,Susan E. Clarke,Peter John,2015-02-15 The Oxford Handbook of Urban Politics is an authoritative volume on an established subject in political science and the academy more generally urban politics and urban studies The editors are all recognized experts and are well connected to the leading scholars in urban politics The handbook covers the major themes that animate the subfield the politics of space and place power and governance urban policy urban social organization citizenship and democratic governance representation and institutions approaches and methodology and the future of urban politics Given the caliber of the editors and proposed contributors the volume sets the intellectual agenda for years to come **Social Capital and European Democracy** Marco Maraffi,Kenneth Newton,Jan Van Deth,Paul Whiteley,2008-08-28 The authors of this work examine the dominant view that voluntary activity promotes social capital and hence good government but also explore alternative models for the creation of social capital Theoretical discussion is combined with detailed case studies to provide a new explanation of the origins and nature of social capital its effects on political participation and policy making the role of the voluntary sector Contributors go on to examine the possibility that current changes in the voluntary sector may in fact undermine social capital and consider the consequences This book is an important step forward in this rapidly growing field of research and adds a unique European perspective to a debate which has been largely US focussed **Party Politics and Local Government** Colin Copus,2004-08-21 This book is an explanation of the long standing interrelationship between local government and political parties It examines and outlines the differences between the political party outside the council and the political party group of councillors within the council It explores the impact that the party groups have on the conduct of council business decision making and policy development and the impact they have on local representation It addresses two questions that are fundamental to local representative democracy who or what is it that the councillor represents and are councillors elected to govern or to serve Local Government in the United Kingdom David Wilson,Chris Game,2011-04-12 During its 13 years of office Labour s modernization agenda transformed the world of UK local government Amidst a starkly altered political and economic climate the coalition government formed in 2010 pledged to implement equally radical changes to the system Taking account of the coalition s programme for government and its first round of spending cuts the completely revised and updated fifth edition of this popular and established text is timed to take full advantage of this historic juncture David Wilson and Chris Game provide readers with systematic coverage of the UK s local government The book examines its defining features its history changing structure operations functions financing and its relations with central government The fifth edition gives additional emphasis to local government in the devolved regions of the UK and provides more extensive analysis of centre local government relations The authors deliver a thorough critique of Labour s third term in office Looking ahead

the book anticipates the future of local government under the coalition government Two themes look likely to dominate policy making decentralization and cuts to public spending With its clear accessible non technical style and popular illustrations *Local Government in the United Kingdom* will be essential reading for students practitioners and anyone with an interest in local politics

Spatial Policy in a Divided Nation Richard T. Harrison, Mark Hart, 2002-09 This re evaluation of the role of regional policy in the UK has been accompanied by a much closer identification of regional policy with national economic policymaking This book drawing upon the contributions of a large number of experts in the field in the UK sets the debate on the future of spatial policy explicitly within the context of the economics and politics of the North South divide Recent policy debates in the United Kingdom have highlighted two major issues which will shape future policy developments and their impact in the 1990s the persistence of pronounced regional economic and social imbalances and the shift away from traditional perceptions of the role of regional policy with a new emphasis on inner city as opposed to regional problems In this collection by leading researchers in the field the role of regional policy in the UK is re evaluated against a background of renewed debate on the economic disparities inherent in the north south divide and an assessment of the implications for future policy

A Contrived Countryside Keith Hoggart, 2021-03-26 This book shows how governance regimes before the 1970s suppressed rural prospects of housing improvement and created conditions for middle class capture Using original archival sources to reveal the intricacies of local and national policy processes weak rural housing performances are shown to owe more to national governance regimes than local under performance Looking behind the scenes at policy processes highlights neglected principles in national governance and shows how investigating rural housing is fundamental to understanding the national scene With original insights and a new analytical perspective this volume offers evidence and conclusions that challenge mainstream assumptions in public policy housing rural studies and planning

Empowering Communities? Jean Drage, 2002 The changes in representation participation and ongoing reforms in the local government of New Zealand over the past two decades are discussed in this book Contributors include both observers and participants in local government from academics and people involved in policy development to advocates for the sector and the workers themselves

Democracy and the Role of Associations Sigrid Rossteutscher, 2005 Voluntary associations have been presented as a solution to political apathy and cynicism towards representative democracy The authors collected in this volume however argue that these claims require more robust substantiation and seek to critically examine the crucial link between the associative sector and the health of democracy Focusing on the role of context and using diverse approaches and empirical material they explore whether these associations in differing socio political contexts actually undermine rather than reinvigorate democracy

Getting Into Local Power Romain Garbaye, 2011-07-22 This book presents a comparison of the patterns of ethnic minority politics in British and French city politics A comparison of the participation of ethnic minorities in British and French cities Includes direct comparisons of particular cities Birmingham Lille and Roubaix Shows

how ethnic and cultural diversity translates into political conflict in different political systems Considers styles of political mobilisation of ethnic minorities in the context of urban political systems as well as the strategies used by party leaders and to manage ethnic diversity in political competition Analyses how ethnic and cultural diversity in urban societies translates into conflictual politics Enhances our understanding of local politics and of the evolution of political representation in industrialised democracies **Urban Regeneration, Community Power and the (In)Significance of 'Race'** Paul J.

Maginn,2017-11-30 The concepts of community consultation and participation have come to dominate academic and policy debate about urban regeneration partnerships However there has been relatively little discussion about the nature of community power within regeneration partnerships Adopting an ethnographic approach in the study of community participation and power and the significance of race in three ethnically diverse neighbourhoods in London this book highlights that there has been a pluralistic turn in British urban regeneration policy Local communities often portrayed as the least powerful partner within partnerships are shown to use various strategies to influence decision making thus giving rise to a new typology of pluralism pragmatic hyper and paternalistic Furthermore the significance of race and racism within community forums and regeneration partnerships is challenged The playful use of the term In Significance in the title is linked to the argument that although racism exists race does not always matter **Remaking the Union** Howard Elcock,Dr

Michael Keating,2013-01-11 This volume addresses the issues arising from the recent devolution referenda by exploring the historical development of the proposals the importance of national and regional identities the changing policies of the political parties and the approaches of business and other major groups towards devolution It also looks at the impact on electoral reform coming from the proposal that proportional representation be used to elect the regional assemblies and how the new assemblies are to be financed Finally the book discusses the implications of a devolved British state where different countries and regions achieve different levels of autonomy at different paces **Representation** David Judge,2005-07-22

This book provides an excellent insight into the theory and practice of political representation a concept that is central to the understanding of modern British politics The book explores the key elements of representation and the inextricable connections between theory and the unique British representative tradition Using extensive contemporary examples and key theorists this book will be essential reading for students of British politics **Fractured Cities** Brian D. Jacobs,2003-09-02

Anglo American cities face economic decline social polarisation and racial conflict Their fate is increasingly decided by the global actions of transnational corporations and market forces Community groups find it difficult to gain access to the political system Ethnic minorities strive for empowerment while indebted city governments battle to maintain basic services Such is the urban crisis of the 1990s Fractured Cities describes the political economy of urban change and explores the future of the city Corruption in Urban Politics and Society, Britain 1780-1950 John Smith,2017-05-15 Despite much

recent interest in the area of urban governance little work has been done on the changing ethical standards of urban

leaderships governing institutions or the policing of public life Yet the issue of ethical standards in public life has become a central concern in contemporary public discourse with issues of public probity moral order and personal standards re emerging as central features of political debate This volume places these debates into their historical perspective by examining the linkages between processes of modernisation urbanisation and the ethical standards of governance and public life It considers how ethical debates arise as a result of differential access to positions of authority and from competition for public resources The contributions are drawn from a wide range of scholarly and disciplinary backgrounds and provide a broad analysis of the phenomenon of corruption assessing how debates about corruption arose the narratives used to criticise established modes of public conduct and their consequences for urban leadership Local Governance in Central and Eastern Europe T. Lankina,A. Hudalla,H. Wollmann,2008-01-23 This book examines local government performance in key areas of social services and economic promotion in eight towns in the Czech Republic Hungary Poland and Russia It dispels the myth that socio economic givens or inter governmental systems are key determinants of local development
