Giles welcomes ten guests to a luxurious estate where they will be embarking on a diabolical game of life and death. Giles, while on the guests' side, is a leader who will get out of the way of the killer and stand by as one person in each chapter is murdered in an outrageous manner. For example, one murder is a choreographed shark where the guests have to retrieve the victim's head from the shark's body. Another murder will be at the hands of a driverless car à la Stephen King's Christine. After each murder, the rest of the guests will have their choice of investigating the crime scene, the body, or the last known whereabouts. They then must present their account of the details of the murder. The two whose assessments are least accurate will not sleep easy, knowing one of them will be killed shortly and painfully. In the end, we will be left with the winner, the loser, and the killer. The epilogue will set up Giles's continued journey and Book 2.

Jesus: A Hell of a Secret (A Vatican Thriller) Germano Dalcielo, 2014-08-01. Warning: Bigots and Christ followers are kindly asked not to download this book. Brother Raymond has found a dusty old manuscript in the dark cellars of his convent. It has been kept secret for five hundred years. What was it doing over there? Why is someone trying to kill him? During the Italian Renaissance, Pope Leo X unwarily declared, "How well we know what a profitable superstition this fable of Christ has been for us and our predecessors. What is that supposed to mean? How do the intrigues of 16th-century Papal politics tie into a conspiracy that spans centuries?" Sister Lucia dos Santos, the seer of Fatima, sends a letter to the Vatican from her death bed. What must she tell the world before she dies? Court plots, poisoning, torture, heart-pounding chases. Find out what the most powerful spiritual enterprise of the world, the Catholic Church, can be capable of.

The Secret of Life Paul McAuley, 2022-10-13. 2026. Something is growing in the Pacific Ocean. The Slick appears to be a strange fungus-like organism, but its DNA is unlike anything else on the planet. Rumours start to fly. Was life discovered deep beneath the Martian icecaps on a recent Chinese space mission? If it was, no one is confirming it, but could that same life now be spreading through the ocean and threatening Earth's entire food chain? Brilliant scientist Dr. Mariella Anders is recruited to join an urgent NASA mission to Mars to see if she can uncover the truth of this organism, but this is no straightforward investigation. Corporate powers are committed to exploiting the secrets of the Slick for profit; radical eco-terrorists strike out against rampant genetic engineering; and a second Chinese mission to Mars at the same time has its goals shrouded in mystery. The secret of life on Earth and Mars might be found on the red planet, but who can Mariella trust with the truth once it's found? And what price will she have to pay for it?
