Secondary Education In Ireland 1870 1921:

Secondary Education in Ireland, 1870-1921 T. J. McElligott, 1981 *Secondary Education in Ireland, 1870-1921* T. J. McElligott, 1981 Social change and everyday life in Ireland, 1850-1922 Caitriona Clear, 2013-07-19 Men and women who were born grew up and died in Ireland between 1850 and 1922 made decisions to train to emigrate to stay at home to marry to stay single to stay at school based on the knowledge and resources they had at the time This the first comprehensive social history of Ireland for the years 1850 1922 to appear since 1981 tries to understand that knowledge and to discuss those resources for men and women at all social levels on the island as a whole Original research particularly on extreme poverty and public health is supplemented by neglected published sources local history journals popular autobiography newspapers Folklore and Irish language sources are used extensively All recent scholarly books in Irish social history are of course referred to throughout the book but it is a lively read reproducing the voices of the people and the stories of individuals whenever it can questioning much of the accepted wisdom of Irish historiography over the past five decades Statistics are used from time to time for illustrative purposes but tables and graphs are consigned to the appendix at the back There are some illustrations An idea summary for the student loaded with prompts for future research this book is written in a non cliched jargon free style aimed at the general reader Mass Education and the Limits of State Building, c.1870-1930 L. Brockliss, N. Sheldon, 2012-02-21 The first comparative study of the spread of mass education around the world in the late nineteenth and early twentieth centuries this unique new book uses a bottom up focus and demonstrates to an extent not appreciated hitherto the gulf between the intentions of the government and the reality on the ground Church, State, and the Control of Schooling in Ireland 1900-1944 B. Titley, 1983-09-01 In the final two decades of British rule in Ireland the Roman Catholic Church saw its pre eminent role in the control of schooling threatened by the secularist and democratic reforms of the imperial administration Consequently the Catholic bishops increasingly viewed the success of the nationalist movement as the best guarantee of the continuation of the educational status quo The nationalist alliance proved a key element in obstructing proposed reforms in the pre independence period a period characterized by church state hostility In this volume Dr Titley examines the institutional continuity of the Irish school system focusing on the role of the church as educational power broker He shows how in the congenial atmosphere of the new Irish state the secular and ecclesiastical authorities shared the same educational philosophy and view of the role of religion in the schools He argues that the church jealously guarded its educational hegemony because of the important role played by the schools in producing candidates for the religious life and an unquestioning middle class Dr Titley also suggests that the failure of the secularist ideology to make headway in education proves that the Irish revolution was in reality a conservative reaction which insulated the country from modernizing influences This volume is an important contribution to educational theory and to the cultural history of modern Ireland *New Turns in the History of Education in Ireland* Deirdre Raftery, 2023-06-27 The chapters in this book offer a

range of impressive new studies on the history of education in Ireland based on detailed research and drawing on important sources This book also serves to show the healthy state of the history of education in Ireland In particular the book also seeks to understand how both teachers and pupils in Ireland experienced education and how they received education policies and education change The lived reality of education is woven through the chapters in this book while the impact of policy on education practice is illuminated many times and with great clarity This book is a very important contribution not only to the history of education but also more widely to social history women s history church history and political history It was originally published as a special issue of the journal History of Education **Irish Education** Antonia McManus,2014-07-07

James Joyce's Teaching Life and Methods Elizabeth Switaj, 2016-04-29 Before Joyce became famous as writer he supported himself through his other language work English language teaching in Pola Trieste and Rome The importance of James Joyce's teaching however has been underestimated until now The very playfulness and unconventionality that made him a popular and successful teacher has led his pedagogy to be underrated and the connections between his teaching and his writing have been largely neglected James Joyce's Teaching Life and Methods reveals the importance in A Portrait of the Artist as a Young Man Ulysses and Finnegans Wake of pedagogy and the understanding of language Joyce gained teaching English as a Foreign Language in Berlitz schools and elsewhere

Theodore William Moody, Francis X. Martin, Francis John Byrne, 1976 A New History of Ireland in nine volumes provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the middleages down to the present day Back cover Ulster Since 1600

Liam Kennedy, Philip Ollerenshaw, 2012-11-22 Ulster Since 1600 surveys the history of the province from plantation to partition and onwards from the formation of the Northern Ireland state to the Troubles of recent decades It synthesises existing historical knowledge and also brings new insights to bear on the political social and economic evolution of the province and its peoples The word Ulster conjures up images of communal conflict sectarianism and peace processes of indefinite duration but as this volume shows there is much more to the history of Ulster and its peoples From the Plantation of Ulster in the early seventeenth century the province has been home to three major ethnic and religious groups It was this radically reconstituted society that produced a precociously early emigration to North America that celebrated the outbreak of the French Revolution and that in the Victorian era hosted Ireland's first industrial city Its rural poor suffered destruction and death during the Great Famine of the 1840s along with their counterparts in the south of Ireland Its urban working classes had much in common with the industrial classes of England and Scotland in terms of religiosity popular entertainment labour movements gender and family relationships This multi authored volume is a major contribution to the history of Ireland and to Ireland's contested place in the British and the wider world **Piety and Privilege** Tom

O'Donoghue, Judith Harford, 2021-11-24 For centuries the Catholic Church around the world insisted it had a right to provide and organize its own schools It decreed also that while nation states could lay down standards for secular curricula pedagogy and accommodation Catholic parents should send their children to Catholic schools and be able to do so without suffering undue financial disadvantage Thus from the Pope down the Church expressed deep opposition to increasing state intervention in schooling especially during the nineteenth century By the end of the 1920s however it was satisfied with the school system in only a small number of countries Ireland was one of those There the majority of primary and secondary schools were Catholic schools The State left their management in the hands of clerics while simultaneously accepting financial responsibility for maintenance and teachers salaries During the period 1922-1967 the Church unhindered by the State promoted within the schools practices aimed at the salvation of souls and at the reproduction of a loyal middle class and clerics The State supported that arrangement with the Church also acting on its behalf in aiming to produce a literate and numerate citizenry in pursuing nation building and in ensuring the preparation of an adequate number of secondary school graduates to address the needs of the public service and the professions All of that took place at a financial cost much

lower than the provision of a totally State funded system of schooling would have entailed Piety and Privilege seeks to understand the dynamic between Church and State through the lens of the twentieth century Irish education system *Irish Education* John Coolahan,1981

The humanities and the Irish university Michael O'Sullivan,2016-05-16 This is the first book length study of the humanities and the Irish university Ireland was a deeply religious country throughout the twentieth century but the colleges of its National University never established a religion or theology department The official first language of Ireland is Irish but the vast majority of teaching in the arts and humanities is in English These are two of the anomalies that long constrained humanities education in Ireland This book charts a history of responses to humanities education in the Irish context Reading the work of John Henry Newman Padraig Pearse Sean O Tuama Denis Donoghue Declan Kiberd Richard Kearney and others it looks for an Irish humanities ethos It compares humanities models in the US France and Asia with those in Ireland in light of work by Immanuel Kant Pierre Bourdieu and Jacques Derrida It should appeal to those interested in Irish education and history

Charles Stewart Parnell and His Times N. C. Fleming,Alan O'Day,2011-07-06 Charles Stewart Parnell 1846 1891 wrote remarkably little about himself but he has attracted the attention of many writers politicians and scholars both during his lifetime and ever since His controversial and provocative role in Irish and British affairs had him vilified as a murderer in The Times and afterwards dramatically vindicated by the Westminster Parliament It cast him as a romantic hero to the young James Joyce and a self serving opportunist to the journalists of the Nation Parnell has been the subject of court cases parliamentary enquiries and debates journalism plays poems literary analysis and historical studies For the first time all these have been collected catalogued and cross referenced in one volume an invaluable resource for scholars of late nineteenth century Ireland and Britain Divided into fifteen chapters including a biographical sketch the volume contains information on manuscript and archival collections printed primary sources Parnell's writing Parnell's speeches in the House of Commons and outside Parliament contemporary journalism contemporary writing and contemporary illustrations on Irish affairs and a substantial list of scholarly work including biographies books articles chapters and theses This volume offers readers a clear record of the substantial material already available on Parnell and in doing so offers resources to future research in this area
