Hall,2016-11-11 Originally published in 1926 this short book focused on the symbolism surrounding the ancient patriarch Melchizedek serves as a concise introduction to important imperceptible truths The elaborate rituals of the ancient Mysteries and the simpler ceremonials of modern religious institutions had a common purpose Both were designed to preserve by means of symbolic dramas and processions certain secret and holy processes by the understanding of which man may more intelligently work out his salvation The pages which follow will be devoted to an interpretation of some of these allegories according to the doctrine of the ancient seers and sages *The Secret Teachings of All Ages* Manly P. Hall,2003-10-27 A classic since 1928 this masterly encyclopedia of ancient mythology ritual symbolism and the arcane mysteries of the ages is

available for the first time in a compact reader's edition. Like no other book of the twentieth century, Manly P. Hall's legendary *The Secret Teachings of All Ages* is a codex to the ancient occult and esoteric traditions of the world. Students of hidden wisdom, ancient symbols, and arcane practices treasure Hall's magnum opus above all other works. The Secret Teachings of All Ages Manly Palmer Hall, 2020-09-28. NUMEROUS volumes have been written as commentaries upon the secret systems of philosophy existing in the ancient world, but the ageless truths of life, like many of the earth's greatest

thinkers have usually been clothed in shabby garments The present work is an attempt to supply a tome worthy of those seers and sages whose thoughts are the substance of its pages To bring about this coalescence of Beauty and Truth has proved most costly but I believe that the result will produce an effect upon the mind of the reader which will more than justify the expenditure Work upon the text of this volume was begun the first day of January 1926 and has continued almost uninterruptedly for over two years The greater part of the research work however was carried on prior to the writing of the manuscript The collection of reference material was begun in 1921 and three years later the plans for the book took definite form For the sake of clarity all footnotes were eliminated the various quotations and references to other authors being embodied in the text in their logical order The bibliography is appended primarily to assist those interested in selecting for future study the most authoritative and important items dealing with philosophy and symbolism To make readily accessible the abstruse information contained in the book an elaborate topical cross index is included I make no claim for either the infallibility or the originality of any statement herein contained I have studied the fragmentary writings of the ancients sufficiently to realize that dogmatic utterances concerning their tenets are worse than foolhardy Traditionalism is the curse of modern philosophy particularly that of the European schools While many of the statements contained in this treatise may appear at first wildly fantastic I have sincerely endeavored to refrain from haphazard metaphysical speculation presenting the material as far as possible in the spirit rather than the letter of the original authors By assuming responsibility only for the mistakes which may appear herein I hope to escape the accusation of plagiarism which has been directed against nearly every writer on the subject of mystical philosophy Having no particularism of my own to promulgate I have not attempted to twist the original writings to substantiate preconceived notions nor have I distorted doctrines in any effort to reconcile the irreconcilable differences present in the various systems of religio philosophic thought The entire theory of the book is diametrically opposed to the modern method of thinking for it is concerned with subjects openly ridiculed by the sophists of the twentieth century Its true purpose is to introduce the mind of the reader to a hypothesis of living wholly beyond the pale of materialistic theology philosophy or science The mass of abstruse material between its covers is not susceptible to perfect organization but so far as possible related topics have been grouped together **Mysteria** Otto Henne am Rhyn, 1895
