Alexis, 2018-04-03 A person can be brought into bondage in two different ways by force or by his own will Force is a crude way of bringing a person into submission but using the persons own free will can be done sophistically and covertly Under the banner of democracy and freedom America has been under the bondage of what E Michael Jones has aptly called sexual liberation and political control for over fifty years In the first two volumes of the trilogy Alexis explored these ideological themes In this last volume he expands on some of those pernicious ideas emphasizing how Zionism for over sixty years has shaken the moral philosophical and intellectual foundation of much of Western culture The Iraq War alone will cost America at least six trillion dollars and as if to prove that America is still in

bondage the oppressors continue to use sophisticated means to seduce Americans so that perpetual wars will never cease to exist in the Middle East and in much of the world This book will seek to address these and related issues and in the process tell us something about the fundamental nature of reality and how to approach this cosmic conflict which has dominated the West for over a thousand years The Challenge of the Cults and New Religions Ron Rhodes, 2009-08-30 Cults and New Religions Aren t Hard to FindThey re in your neighborhood your workplace your school maybe even your family Cults are flourishing across America Chances are you ve encountered one perhaps even know someone who is involved in a cult Can you discuss knowledgably the critical differences between Christianity and the teachings of Mormonism Jehovah s Witnesses Scientology the New Age movement Hindu based cults and other prominent groups and religious movements In this essential resource preeminent cult authority Ron Rhodes explains what cults are why they are cause for concern and why in the 21st century as never before their numbers and memberships are exploding nationally and worldwide Drawing on his extensive experience as a cult researcher Rhodes offers to the point cutting edge information on twelve major cults and new religions MormonismJehovah s WitnessesMind SciencesNew Age MovementChurch of ScientologyHindu based CultsUnification ChurchBaha i FaithUnitarian UniversalismOneness PentecostalismMasonic LodgeSatanismLearning the distinctives of these groups will equip you to deal with any of the thousands of other less significant cults you may encounter The Challenge of the Cults and New Religion includes Color photosScripture IndexSubject IndexGlossaryBibliographyAnd your resources don t end at the last page You can supplement your knowledge whenever you choose by visiting the author's Web site at www ronrhodes org for free thorough up to the minute information on each cult discussed in the book If you re concerned for the temporal and eternal welfare of others The Challenge of the Cults is a must It will help you confront the deception of false Christs and lying doctrines with the clear well grounded truth of biblical Christianity H.P. Lovecraft & the Black Magickal Tradition John L. Steadman, 2015-09-01 A Lovecraft scholar presents a penetrating study of the author's life work and connections to modern occultism Many practicing occultists have speculated that H P Lovecraft possessed in depth knowledge of black magick Yet literary scholars maintain the renowned horror writer was simply a master of his craft and that the enduring power of his work is purely the result of his rich imagination In H P Lovecraft the Black Magical Tradition John L Steadman examines the considerable overlap between the author's fictions and true occultism and consider whether Lovecraft was a practitioner of the dark arts himself Weaving Lovecraft's biography together with literary criticism and modern magickal systems Steadman demonstrates that Lovecraft's works specifically his Cthulhu Mythos and his creation of the Necronomicon represent the basis for a legitimate magickal system Blood and Faith Damon T. Berry, 2017-09-26 Beginning with Ronald Reagan's 1980 presidential campaign the term religious right entered the popular lexicon coming to signify a politically and socially conservative form of Christianity that informs American conservatism to this day Less well known are other ideologies that have influenced the far right since well before 1980 including Odinism Creativity and

racialized atheism The rising popularity of these extreme groups and their philosophical grounding in racial politics and religious bigotry has caused a shift away from and often hostility toward even racist forms of Christianity among American white nationalists In Blood and Faith Berry deftly explores the causes of this shift rooted largely in response to racialized anxieties that are by no means exclusive to extremists in America Focusing on the challenges these tensions pose for contemporary white nationalists seeking access to mainstream conservative politics Berry also considers the recent rise of the so called alt right and the unifying issues of anti multiculturalism and anti immigration around which moderate and fringe groups have rallied Blood and Faith is a provocative investigation of the complex evolving role of white nationalism and an urgent reminder of the outsized influence of religion in American political life
