Staging Women and the Soul-Body Dynamic in Early Modern England Sarah E. Johnson, 2016-04-01

Though the gender coded soul body dynamic lies at the root of many negative and disempowering depictions of women Sarah Johnson here argues that it also functions as an effective tool for redefining gender expectations Building on past criticism that has concentrated on the debilitating cultural association of women with the body she investigates dramatic uses of the soul body dynamic that challenge the patriarchal subordination of women Focusing on two tragedies two comedies and a small selection of masques from approximately 1592-1614 Johnson develops a case for the importance of drama to scholarly considerations of the soul body dynamic which habitually turn to devotional works sermons and philosophical and religious treatises to elucidate this relationship Johnson structures her discussion around four theatrical relationships each of which is a gendered relationship analogous to the central soul body dynamic puppeteer and puppet tamer and tamed ghost and haunted and observer and spectacle Through its thorough and nuanced readings this study redefines one of the period's most pervasive analogies for conceptualizing women and their relations to men as more complex and shifting than criticism has previously assumed It also opens a new interpretive framework for reading representations of women adding to the ongoing feminist re-evaluation of the kinds of power women might actually wield despite the patriarchal strictures of their culture

The Divine Ideas Tradition in Christian Mystical Theology Mark A. McIntosh, 2021 This study brings to life the striking role of the divine ideas tradition in the teaching of its central exponents and suggests how the divine ideas might

constructively inform Christian theology and spirituality today Becoming Human J. Allan Mitchell, 2014-05-01 *Becoming Human* argues that human identity was articulated and extended across a wide range of textual visual and artifactual assemblages from the twelfth to the fifteenth centuries J Allan Mitchell shows how the formation of the child expresses a manifold and mutable style of being To be human is to learn to dwell among a welter of things A searching and provocative historical inquiry into human becoming the book presents a set of idiosyncratic essays on embryology and infancy play and games and manners meals and other messes While it makes significant contributions to medieval scholarship on the body family and material culture *Becoming Human* theorizes anew what might be called a medieval ecological imaginary Mitchell examines a broad array of phenomenal objects including medical diagrams toy knights tableware conduct texts dream visions and scientific instruments and in the process reanimates distinctly medieval ontologies In addressing the emergence of the human in the later Middle Ages Mitchell identifies areas where humanity remains at risk In illuminating the past he shines fresh light on our present **Gothicka** Victoria Nelson, 2012-04-23 The Gothic has taken a revolutionary turn in this century Today s Gothic has fashioned its monsters and devils into heroes and angels and is actively reviving supernaturalism in popular culture Nelson argues that this mainstreaming of a spiritually driven supernaturalism is a harbinger of what a post Christian religion in America might look like *Victorian Literature and Finance* Francis O'Gorman, 2007-03-22 Victorian Britain offered to the globe an economic structure of unique complexity The trading nation at the heart of a great empire developed the practices of advanced capitalism currency banking investment money markets business practices and theory intellectual property legislation from which the financial systems of the contemporary world emerged Cultural forms in Victorian Britain transacted with high capitalism in a variety of ways but literary critics interested in economics have traditionally been preoccupied either with writers hostility to industrial capitalism in terms of its shaping of class or with the development of consumerism *Victorian Literature and Finance* is the first extended study to take seriously the relationships between literary forms and those more complex discourses of Victorian high finance These essays move beyond the examination of literature that was merely impatient with the perceived consequences of capitalism to analyse creative relationships between culture and economic structures Considering such topics as the nature of currency women and the culture of investment the profits of a modern media age the dramatization of risk on the Victorian stage the practice of realism in relation to business theory the culture of speculation at the end of the century and arguments about the uncomfortable relationship between literary and financial capital *Victorian Literature and Finance* sets new terms for understanding and theorizing the relationship between high finance and literary writing in the nineteenth century **Victorian Automata** Suzy Anger, Thomas Vranken, 2024-03-28 The relationship between lifelike machines and mechanistic human behaviour provoked both fascination and anxiety in Victorian culture This collection is the first to examine the widespread cultural interest in automata both human and mechanical in the nineteenth century It was in the

Victorian period that industrialization first met information technology and that theories of physical and mental human automatism became essential to both scientific and popular understandings of thought and action Bringing together essays by a multidisciplinary group of leading scholars this volume explores what it means to be human in a scientific and industrial age It also considers how Victorian inquiry and practices continue to shape current thought on race creativity mind and agency This title is part of the Flip it Open programme and may also be available Open Access Check our website Cambridge Core for details

Staging the Absolute Thomas Seifrid,2023-10-02 Staging the Absolute argues that an array of practices and beliefs came together to define an essential aspect of Russian and Soviet culture in the twentieth century the persistent desire to interrupt or disrupt history Drawing on sources that define the nature of public rituals the book reveals the pervasive presence of the impulse to impede history in Russia's modern era and the realization of the idea in the form of the Stalinist show trials of the 1930s Thomas Seifrid analyses Soviet festivals public displays of agitational propaganda and urban planning together with such modernist precursors as fin de siècle and early twentieth century projects for reviving the theatre modernist adaptations of puppet theatre the Faust legend and its vogue in early twentieth century Russia and the nineteenth century panorama The book reveals that what binds these otherwise disparate phenomena together is a shared impatience with history and a corresponding desire to appropriate urban space Illuminating the deeper meanings in these revived archaic forms Staging the Absolute shows how pervasive the interest in disrupting history was in the Russian modern era

A New Vocabulary for Global Modernism Eric Hayot,Rebecca L. Walkowitz,2016-11-29 Bringing together leading critics and literary scholars *A New Vocabulary for Global Modernism* argues for new ways of understanding the nature and development of twentieth century literature and culture Scholars have largely understood modernism as an American and European phenomenon Those parameters have expanded in recent decades but the incorporation of multiple origins and influences has often been tied to older conceptual frameworks that make it difficult to think of modernism globally Providing alternative approaches *A New Vocabulary for Global Modernism* introduces pathways through global archives and new frameworks that offer a richer more representative set of concepts for the analysis of literary and cultural works In separate essays each inspired by a critical term this collection explores what happens to the foundational concepts of modernism and the methods we bring to modernist studies when we approach the field as a global phenomenon Their work transforms the intellectual paradigms we have long associated with modernism such as tradition antiquity style and translation New paradigms such as context slum copy pantomime and puppets emerge as the archive extends beyond its European center In bringing together and reexamining the familiar as well as the emergent the contributors to this volume offer an invaluable and original approach to studying the intersection of world literature and modernist studies
