Secret Life Of The Harvest Mouse:

Secret Life of the Harvest Mouse Stephen Harris, 1979 The Secret Life of an Arable Field Sophie McCallum, 2021-11-30 The Field looks at the eco system of an arable field complete with photographs from crops trees hedgerows and wildflowers to the wide variety of animals farmland birds insects butterflies and moths that they support and how they depend on each other and are all vital for the wonderful environment we need to thrive and enjoy The book focuses on the relationship between these key species how they work together and interact with their environment in order to survive It is about the eco system and how they all link together and how every species no matter how seemingly insignificant plays a vital part in the food chain and ultimate survival of all species For every species referred there is a photograph detailing it with over 120 color images throughout the book The animals and birds that live within this habitat are reported on and the insects including detailed analysis of bumblebees honeybees and ants as well as more hidden species such as the earthworm are described in their role in life with in depth facts and photos Wildlife such as badgers muntjacs hedgehogs and fallow deer and their habits are detailed along with birds that survive on farmland and are now sadly becoming rare Included in this range are corn buntings skylarks goldfinches kestrels yellow wagtails and jackdaws although there are many more The main aim of this book is to give a detailed description of the private life of these creatures and show how they depend upon and work together in harmony creating the environment that we are so adeptly eradicating The Government have set out a package of reforms to deliver 300 000 new homes a year by the mid 2020s Our havens of nature are being destroyed and this book will examine with photographs and text what really makes the field a special place both for wildlife and humans alike

colonized six of the world's continents and even traveled into space. As one of the earth's smallest prey, the mouse she shows represents courage, perseverance, and adaptability. She surveys the depiction of mice in art, myth, literature, and folklore, considering how they are held in divine regard in the Hindu and Buddhist traditions. Carroll also delves into the integral place mice hold within the modern scientific endeavor, that of the laboratory animal. Telling the story of this beguiling creature in rich detail, *Mouse* is an intriguing look at an animal we have worshipped, tested, slaughtered, loved, and loathed. [The White Ship](#) Nicholas Salaman, 2016-03-10. The most calamitous event ever to afflict the royal family of England. Riveting. THE TIMES. The White Ship sank in the English Channel on 25 November 1120 with other one survivor. On the 900th anniversary of the tragedy, this tale of anarchy, passion, and revenge brings the past vividly to life. For fans of Ken Follett, Robert Harris, and Antonia Fraser. REVENGE CAN CHANGE THE COURSE OF HISTORY. Normandy 1119. A hotbed of malcontent barons is kept in fragile order by their duke, Henry I, King of England. Fresh from early years in a monastery, Bertold, the bastard son of one of these barons, meets Juliana, a countess and daughter of the King. He falls in love or lust, but sees that his chance could come with work in her small court. Soon he finds himself caught up in a ruthless feud between Juliana and her father. And when Juliana's daughters are offered as hostages for a strategic castle, even love may not be enough to allay a tragedy that will change everything. Reader praise for THE WHITE SHIP: The period and characters are brought alive in a gripping tale. Wonderfully written and entirely captivating, this is an excellent historical novel. Told with humour combined with the drama and savagery of the time. I loved the history. I loved the characters, heroic and villainous.
