Marguerite de Valois, Queen of France, Wife of Henri IV Various Authors, The Secret Memoirs of Henry of Navarre s famous queen possess a value which the passage of time seems but to heighten Emanating as they undoubtedly do from one of the chief actors in a momentous crisis in French history and in the religious history of Europe as well their importance as first hand documents can hardly be overestimated While the interest which attaches to their intimate discussions of people and manners of the day will appeal to the reader at the outset Marguerite de Valois was the French contemporary of Queen Elizabeth of England and their careers furnish several curious points of parallel Marguerite was the daughter of the famous Catherine de Medici and was given in marriage by her scheming mother to Henry of Navarre whose ascendant Bourbon star threatened to eclipse as afterwards it did the waning house of Valois Catherine had four sons three of whom successively mounted the throne of France but all were childless Although the king of the petty state of Navarre was a Protestant and Catherine was the most fanatical of Catholics she made this marriage a pretext for welding the two houses but actually it seems to have been a snare to lure him to Paris for it was at this precise time that the bloody Massacre of St Bartholomew s day was ordered Henry himself escaped it is said through the protection of Marguerite his bride but his adherents in the Protestant party were slain by the thousands A wedded life begun under such sanguinary auspices was not destined to end

happily Indeed their marriage resembled nothing so much as an armed truce peaceable and allowing both to pursue their several paths and finally dissolved by mutual consent in 1598 when Queen Marguerite was forty five The closing years of her life were spent in strict seclusion at the Castle of Usson in Auvergne and it was at this time that she probably wrote her Memoirs In the original the Memoirs are written in a clear vigorous French and in epistolary form Their first editor divided them into three sections or books As a whole they cover the secret history of the Court of France from the years 1565 to 1582 seventeen years of extraordinary interest comprising as they do the Massacre of St Bartholomew already referred to the formation of the famous League the Peace of Sens and the bitter religious persecutions which were at last ended by the Edict of Nantes issued after Henry of Navarre became Henry IV of France Besides the political bearing of the letters they give a picturesque account of Court life at the end of the 16th century the fashions and manners of the time piquant descriptions and amusing gossip such as only a witty woman as Marguerite certainly was could inject into such subjects The letters indeed abound in sprightly anecdote and small talk which yet have their value in lightening up the whole situation The period covered coincides very nearly with the first half of Marguerite s own life Incidents of her girlhood are given leading to more important matters personal and political up to the twenty ninth year of her age The letters end therefore some seven years prior to the death of her brother Henry III of France and while she was still merely Queen of Navarre It will always be a matter of regret that the latter half of her life was not likewise covered *Classified Catalogue of the Carnegie Library of Pittsburgh, 1895- 1902: Fine Arts.
