Bluestockings Now! Deborah Heller, 2016-03-03 Bringing together top specialists in the field this edited volume challenges the theory that the eighteenth century British intellectual women known as the Bluestockings were an isolated phenomenon spanning the period from the 1750s through the 1790s On the contrary the contributors suggest the Bluestockings can be conceptualized as belonging to a chain of interconnected networks taking their origin at a threshold moment in print media and communications development and extending into the present The collection begins with a definition of the Bluestockings as a social role rather than a fixed group a movement rather than a static phenomenon an evolving dynamic reaching into our late modern era Essays include a rare transcript of a Bluestocking conversation new previously unknown Bluestockings brought to light for the first time and descriptions of Bluestocking activity in the realms of natural history arts and crafts theatre industry travel and international connections The concluding essay argues that the Blues reimagined and practiced women's work in ways that adapted to and altered the course of modernity decisively putting a female imprint on economic social and cultural modernization Demonstrating how the role of the Bluestocking has evolved through different historical configurations yet has structurally remained the same the collection traces the influence of the Blues on the Romantic Period through the nineteenth century and proposes the reinvention of Bluestocking practice in the present

M.P. Or The Blue-socking. A Comic Opera [in Prose, with Songs] ... Thomas Moore,1811 *Hidden Patrons* Amy Boyington,2023-11-02 An enduring myth of Georgian architecture is that it was purely the pursuit of male architects and their wealthy male patrons History states that it was men who owned grand estates and houses who commissioned famous architects and who embarked upon elaborate architectural schemes *Hidden Patrons* dismantles this myth revealing instead that women were at the heart of the architectural patronage of the day exerting far more influence and agency than has previously been recognised Architectural drawing and design discourse and patronage were interests shared by many women in the eighteenth century Far from being the preserve of elite men architecture was a passion shared by both sexes

intellectually and practically as long as they possessed sufficient wealth and autonomy In an accessible readable account Hidden Patrons uncovers the role of women as important patrons and designers of architecture and interiors in eighteenth century Britain and Ireland Exploring country houses Georgian townhouses villas estates and gardens it analyses female patronage from across the architectural spectrum and examines the work of a range of pioneering women from grand duchesses to businesswomen to lowly courtesans Re examining well known Georgian masterpieces alongside lesser known architectural gems Hidden Patrons unearths unseen archival material to provide a fascinating new view of the role of women in the architecture of the Georgian era
