Secret Cinderella:

Cinderella's Secret Angela S. Sullivan, 2009-08-06 There comes a time in every child's life when they are expected to grow up and put away their childish fantasies and beliefs. By the time children enter formal school they are discouraged from using their imagination or believing in magic and miracles. The fairytales they once believed in are replaced with math and science. No longer are they encouraged to believe in Santa Clause or the Easter bunny. In teaching children that imagination and fantasy are childish activities that we must outgrow, we have created a people who find it difficult to have the kind of faith that moves mountains and allows one to walk on water. We find it difficult to understand that our realities are created within our own imagination and attitudes. Cinderella's Secret takes a look at some of the valuable life lessons that are contained in simple childish fairytales in hopes of helping adults rekindle their passion for finding happily ever after.

Secret Cinderella Dani Sinclair, 2012-02-15 DESPERATELY SEEKING PRINCE CHARMING Her desperate plan to save her brother left Melanie Andrews with a dead body on her hands, a killer at her heels, and nowhere to run except into Roderick Laughlin's arms. As soon as she saw the seductive self-made man in the crowded ballroom, she knew she'd found a temporary haven. And as the clock struck twelve, Melanie pressed a burning kiss on his lips and escaped into the night, thinking she'd never see him again. She thought wrong. The taste of her was seared into his mind, and there was nowhere Roderick's mysterious Cinderella could hide. Because she'd gotten mixed up in a deadly game, one only Roderick could protect her from, as soon as he convinced her he was the only man to trust.

They're from different worlds, but their connection's undeniable. After years of estrangement from her family, Emilia finally found where she belongs by Laurent's side. I was hooked right into the story, reading every single word. This book has to be my new favourite. Honestly, this book is most entertaining. Goodreads on Honeymooning with Her Brazilian Boss filled with delightful scenes, touching revelations, droll banter, heartfelt conversation, and such emotional honesty and poetry to their final avowals of love that I grew teary. Mapping Fairy-Tale Space Christy Williams, 2021-04-27 Examines how popular fairy tales collapse narrative borders and reimagine the genre for the twenty first century Mapping Fairy Tale Space Pastiche and Metafiction in Borderless Tales by Christy Williams uses the metaphor of mapping to examine the narrative strategies employed in popular twenty first century fairy tales It analyzes the television shows Once Upon a Time and Secret Garden a Korean drama the young adult novel series The Lunar Chronicles the Indexing serial novels and three experimental short works of fiction by Kelly Link Some of these texts reconfigure well known fairy tales by combining individual tales into a single storyworld others self referentially turn to fairy tales for guidance These contemporary tales have at their center a crisis about the relevance and sustainability of fairy tales and Williams argues that they both engage the fairy tale as a relevant genre and remake it to create a new kind of fairy tale Mapping Fairy Tale Space is divided into two parts Part 1 analyzes fairy tale texts that collapse multiple distinct fairy tales so they inhabit the same storyworld transforming the fairy tale genre into a fictional geography of borderless tales Williams examines the complex narrative restructuring enabled by this form of mash up and expands postmodern arguments to suggest that fairy tale pastiche is a critical mode of retelling that celebrates the fairy tale genre while it critiques outdated ideological constructs Part 2 analyzes the metaphoric use of fairy tales as maps or guides for lived experience In these texts characters use fairy tales both to navigate and to circumvent their own situations but the tales are ineffectual maps until the characters chart different paths and endings for themselves or reject the tales as maps altogether Williams focuses on how inventive narrative and visual storytelling techniques enable metafictional commentary on fairy tales in the texts themselves Mapping Fairy Tale Space argues that in remaking the fairy tale genre these texts do not so much chart unexplored territory as they approach existing fairy tale space from new directions remapping the genre as our collective use of fairy tales changes Students and scholars of fairy tale and media studies will welcome this fresh approach
