Salvador Dalí Victoria Charles,2019-12-09 As a one of the foremost painters of the 20th century Dal like Picasso and Warhol can boast of having overturned the art of the previous century and directed contemporary art toward its present incarnation As irrational as he was surrealist this genius diverted objects from their original meanings plunging them into the acid of his constantly churning imagination A megalomaniac and an artist who understood above all the force of marketing and publicity Dal disorientates the viewer in order to draw him into the artist s world On his canvases images and colours crash together to express and mock certain ideas creating a subversive eroticism that taps into the subconscious of the avid voyeurs that we are The author Eric Shanes explores the twists and turns of Dal s mad genius commenting on the masterpieces of the painter so as to show the diversity and scope of his talent leaving the reader blown away and bewitched by this Prince of Metamorphosis This work opens up the sweet mad universe of this megalomaniac genius and invites us to let ourselves be overcome Dal is first and foremost an absolute

Losurdo, 2015-04-09 We know of the blood and tears provoked by the projects of transformation of the world through war or revolution. Starting from the essay published in 1921 by Walter Benjamin, twentieth-century philosophy has been committed to the criticism of violence, even when it has claimed to follow noble ends. But what do we know of the dilemmas of the betrayals, the disappointments, and tragedies which the movement of non-violence has suffered? This book tells a fascinating history from the American Christian organizations in the first decades of the nineteenth century who wanted to eliminate slavery and war in a non-violent way to the protagonists of movements: Thoreau, Tolstoy, Gandhi, Capitini, M. L. King, the Dalai Lama, who either for idealism or for political calculation flew the flag of non-violence up to the leaders of today's color revolutions.

English Prose of the Nineteenth Century Hilary Fraser, Daniel Brown, 2017-07-12 Hilary Fraser provides a comprehensive and thorough survey of English prose in the nineteenth century, which draws from a wide variety of fields including art, literary theory, and criticism, biography, letters, journals, sermons, and travel reportage. Through these works, the cultural, social, literary, and political life of the twentieth century, a period of great intellectual activity, can be charted, discussed, and assessed. For the first time, an inclusive critical survey of nineteenth-century non-fiction is presented that traces the century's ideological and cultural upheavals as they are registered in the literary textures of some of its most widely read and influential writings. The book explores the relations between writers who are generally perceived as occupying different discursive spheres, for example between John Stuart Mill, Florence Nightingale, and Mrs. Beeton; between Cardinal Newman, Elizabeth Gaskell, and Hannah Cullwick; and between Charles Darwin, David Livingstone, and Henry Mayhew. The establishment and development of different genres and their interactions over the century are clearly mapped. The genre of the periodical essay, a distinctively modern and flexible form catering to the mass readership, is the subject of the introduction, and then more specialist fields are discussed, covering scientific writing, travel and exploration literature, social reportage, biography, autobiography, journals, letters, religious and philosophical prose, political writing, and history.

Jarraway,2003-01-01 This bold new theoretical study explores dissident subjectivity that is the struggle for unique authorial identity in American literary discourse that has existed according to David Jarraway since the Romantics From Emerson s Experience remarking upon the focal distance within the actual horizon of human life to Toni Morrison s Nobel Prize address sanctifying the artist s sophisticated privileged space American literature has continuously recognized a necessary distance the gap between culturally accepted ideas of selfhood and the intractable reality of the self s never completed construction in time Jarraway s

fascinating examination of modernist poets shows that engaging with this artistic space or going the distance empowers writers and their readers to create and perceive identities that resist the frozen certainties of conventional gender sexual and social roles Employing this theory with grace and precision Jarraway ranges through the dissident process in Gertrude Stein the cultural criticism of William Carlos Williams the deferred racialism of Langston Hughes the queer perversities of Frank O Hara and the spectral lesbian poetics of Elizabeth Bishop Bolstered further by insights from the pragmatism of William James through the cultural critique of Theodor Adorno to the queer theory of Judith Butler the author challenges his audience with politically engaged insistence on the life affirming potentialities of human subjectivity in literature His passionate conclusion demonstrates the liberating fluidity of self made possible by feminist chartings of modern identity s depths Lucidly composed theoretically sophisticated and up to the minute *Going the Distance* painstakingly recovers the dissident American subjective in modernist literary discourse within its fullest cultural context Jarraway s readings are a major contribution to poetry scholarship and to cultural studies that will provoke further investigations into the history of subjectivity in American literature as a whole
