region the size of Texas known locally as the Sertão Backlands tells the true story of a group of nomadic outlaws who reigned over the area from about 1922 until 1938. Taking from the rich, admired and feared by the poor, they were led by the famously charismatic bandit Lampião. The gang maintained their influence by fighting off all the police and soldiers the region could muster. A one-eyed goat rancher who first set out to avenge his father's murder in a lawless land, Lampião proved to be too good a leader, fighter and strategist to ever return home again. By 1925 he commanded the biggest gang of outlaws in Brazil. Known to this day as a prince, Lampião had everything: brains, money, power, charisma and luck. Everything but love until he met Maria Bonita. You teach me to make lace and I'll teach you to make love; this was the song the bandits marched to across the vast open reaches of their starkly beautiful backlands and it was Maria Bonita who made it come true. She was stuck in a loveless marriage when she met Lampião but she rode off with him, becoming Queen of the Bandits. Together the couple still celebrated folk heroes would become the country's most wanted figures, protecting their extraordinary freedom through cunning. Victoria Shorr's stunning literary debut tells Maria's story, her narrative of the intense freedom's terrors and sorrows of this chosen life, the end of which is clear to her all along. With the federal government in Rio mobilizing against the bandits, Backlands describes the epic final days of Lampião's fatal month, July, on the River of Disorder as the gang struggles to summon their good star to save them one more time.
