Secrets Of Our National Literature Chapt:

The Secrets of Our National Literature William Prideaux Courtney, 1908 **Women Novelists Before Jane Austen**

Brian Corman, 2009-06-04 By the time Ian Watt published *The Rise of the Novel* in 1957 it was clear that many women novelists before Jane Austen had been overlooked in critical studies of literature and that some of them had been completely forgotten by the reading public In this book Brian Corman explores the question of how and why this came about Corman provides a systematic survey of the reputations of early women novelists as canons of the novel developed over a period of roughly two hundred years and in so doing suggests reasons for their frequent exclusion *Women Novelists before Jane Austen* challenges the view that exclusion from the canon was a simple function of gender and goes deeper to examine potential reasons why certain women writers were overlooked In the process it provides an overview of histories of the British novel from the beginning through to the mid twentieth century ending with the publication of Watt's famous text Further Corman offers a prolegomenon to the important recovery work of the late twentieth century in which many revised accounts of the history of the novel appeared essentially improving the scope covered by Watt This study historicizes the place of early women novelists in the British canon in order to provide an informed context for current views [Victorian Sensation](#) James A. Secord, 2003-09-20 Fiction or philosophy profound knowledge or shocking heresy When *Vestiges of the Natural History of Creation* was published anonymously in 1844 it sparked one of the greatest sensations of the Victorian era More than a hundred thousand readers were spellbound by its startling vision an account of the world that extended from the formation of the solar system to the spiritual destiny of humanity As gripping as a popular novel *Vestiges* combined all the current scientific theories in fields ranging from astronomy and geology to psychology and economics The book was banned it was damned it was hailed as the gospel for a new age This is where our own public controversies about evolution began In a pioneering cultural history James A Secord uses the story of *Vestiges* to create a panoramic portrait of life in the early industrial era from the perspective of its readers We join apprentices in a factory town as they debate the consequences of an evolutionary ancestry We listen as Prince Albert reads aloud to Queen Victoria from a book that preachers denounced as blasphemy vomited from the mouth of Satan And we watch as Charles Darwin turns its pages in the flea ridden British Museum library fearful for the fate of his own unpublished theory of evolution Using secret letters Secord reveals how *Vestiges* was written and how the anonymity of its author was maintained for forty years He also takes us behind the scenes to a bustling world of publishers printers and booksellers to show how the furor over the book reflected the emerging industrial economy of print Beautifully written and based on painstaking research *Victorian Sensation* offers a new approach to literary history the history of reading and the history of science Profusely illustrated and full of fascinating stories it is the most comprehensive account of the making and reception of a book other than the Bible ever attempted Winner of the 2002 Pfizer Award from the History of Science Society [The Nottingham Library Bulletin](#) Nottingham Free Public
