Law Clerks and the Judicial Process John B. Oakley, Robert S. Thompson, 2024-06-12 This is the first in depth empirical and historical study of the use of law clerks by American judges Although possessing a hundred year heritage the institution has been ignored as an important component of the process of judicial decision making Law clerks are in the authors words subordinate anonymous but often quite powerful lawyers who function as the non commissioned officers in the army of the judiciary American courts are currently altering the traditional use of law clerks through the introduction of important innovations that enhance the ability of judges to dispose of cases rapidly but detract from personal judicial control over individual decisions The authors investigate the clash of tradition and innovation through interviews with sixty three judges of federal courts and appellate courts in California They find distinctly different models of law clerk usage in the state and federal systems which they analyze on the basis of the judges own perceptions of the qualitative and quantitative impact on their decision of variations in the character tenure and duties of staff assistants They offer suggestions on how modern courts can cope with the crisis of volume without unduly sacrificing traditional standards of judicial autonomy Because of the confidential nature of judicial deliberations judges are rarely willing to discuss publicly their use of law clerks This study employs unconventional techniques for penetrating the secrecy of judicial chambers while respecting the confidentiality and the individuality of its sources It presents important new information on the internal operating procedures of the courts studies collating interview data with facts abstracted from pre existing but often obscure sources and providing a particularly close look at the inner workings of the Supreme Court of California and the United States Court of Appeals for the Ninth Circuit Revealing the significance of public funding of judicial staff in determining patterns of law clerk usage it should promote further investigation and debate regarding the proper structure and role of staff assistance in the judicial process This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1980

Committee on Finance, 1979 *Nobody is Protected* Reece Jones, 2023-07-11 An urgent look at the U S Border Patrol from its xenophobic founding to its assault on the Fourth Amendment in its quest to become a national police force Late one July night in 2020 armed men identified only by the word POLICE written across their uniforms began snatching supporters of Black Lives Matter off the street in Portland Oregon and placing them in unmarked vans These mysterious actions were not carried out by local law enforcement or even right wing terrorists but by the U S Border Patrol Why was the Border Patrol operating so far from the boundaries of the United States What were they doing at a protest that had nothing to do with immigration or the border Nobody Is Protected How the Border Patrol Became the Most Dangerous Police Force in the United States is the untold story of how through a series of landmark but largely unknown decisions the Supreme Court has dramatically curtailed the Fourth Amendment of the Constitution in service of policing borders The Border Patrol
