Institutional Change in the Payments System and Monetary Policy Stefan W. Schmitz, Geoffrey Wood, 2007-01-24 Central bankers worldwide welcome the recent increase of research on payment systems This volume providing an expert overview on this timely subject should be required reading for us all Erkki Liikanen Governor of the Bank of Finland Monetary policy has been at the centre of economic research from the early stages of economic thought but payment system research has attracted increased academic attention only in the past decade This book s succeeds in merging these two so far largely separated fields Innovative and groundbreaking Schmitz and Woods initiate research on the interdependence of institutional change in the payments system and monetary policy examining the different channels via which payment systems affect monetary policy It explores important themes such as conceptualization and methods of analysis of institutional change in the payments system determinants of institutional change in the payments system political economy versus technology empirics of institutional change in the retail and in the wholesale payments systems policy initiatives and new technologies in the payments system implications of institutional change in the payments system for monetary policy and the instruments available to central banks to cope with it The result is an accessible overview of conceptual and methodological approaches to institutional change in payment systems and a comprehensive and yet thorough assessment of its implications for monetary policy The insights this timely book provides will be invaluable for researchers and practitioners in the field of monetary economics

Managing Legacy and Change Hamid Foroughi, Andrea Casey, Sonia Coman, 2025-09-01 The book provides insights on managing legacy and change in organizations from some of the pioneering researchers in the field It explores how past legacies both enable and restrict opportunities for organizational renewal social change and new forms of organizing On the one hand tangible and intangible legacies can be a source of authentication legitimation and strategy restoration on the other hand past legacies can restrict our imagination by enforcing path dependency Managing legacy is a vital process for both old and new organizations Older organizations often find that their legacy is at odds with present realities or future directions In contrast newly formed organizations often feel they have a deficit in legacy compared with long established organizations and seek to boost credibility by engaging in activities that can be retrospectively claimed as their legacy In either case when aspects of an organization s raison d tre change the organizational identity is threatened and legacy can become an obstacle or an opportunity By bringing together varied perspectives on legacy including heritage collective memory rhetorical history storytelling and imprinting theory this volume contributes to a deeper understanding of the interplay of legacies and imagined futures as it pertains to organizational identity and change

Changes in the Cordillera Blanca, Peru Vít Vilímek, Bryan Mark, Adam Emmer, 2024-06-20 This book focuses on Peru's highest and most glacierized mountain range the Cordillera Blanca. This mountain range experienced numerous disasters in the past e.g. lake Palcacocha outburst in 1941 earthquake induced ice and rock avalanche from Mt Huascarán in 1970 and has attracted the attention of researchers from around the world. The 15 chapters of the book span from broadly thematic topics of geology geomorphology climate hydrology and hydrogeology lakes glaciation and environmental settings to more specific topics and emergent themes of relevance for the Cordillera Blanca including studies of various types of natural hazards landslides GLOFs. While most of the chapters focus on biophysical processes of the natural environment several chapters explore the complex interactions between humans and environmental factors providing insights and perspectives from social science and the humanities. This book offers an unprecedentedly comprehensive overview of the state of the art knowledge about the geo environmental changes in the Cordillera Blanca.

Energy Transitions and Climate Change Issues in Asia Soocheol Lee, Shiqiu Zhang, Jong Ho Hong, Orapan Nabangchang-Srisawalak, Ken-Ichi Akao, Budy Prasetyo Resosudarmo, 2024-05-31 The rapid pace of economic development and urbanization in Asia have led to several major problems such as greenhouse gas emissions mass consumption and depletion of natural resources. These problems pose a major threat to a sustainable future for Asia and are hindering many Asian countries' goal of becoming carbon neutral by the middle of this century. Solving these problems requires a comprehensive understanding of the nature of energy consumption exploitation of natural resources and deterioration of the environment. To accelerate the green energy transition and promote efficient resource use in Asia a range of policy options and joint efforts among Asian countries will be required including carbon pricing resource tax reform the expansion of transition finance support for the development of low carbon and resource efficient social infrastructure. However Asia is home to many countries each in a different stage of economic development and with its own culture and customs. Practical implementation of these policies will require bringing together researchers policymakers and citizens to share their knowledge and engage in discussions to generate policy ideas that are appropriate for each country. The purpose of this book is to share theoretical and empirical knowledge and convey policy implications that can be expected to accelerate energy transition and resource use effectiveness toward a sustainable future in Asia.
