Settlement And Social Organization The Merovingian Region Of Metz:

Settlement and Social Organization Guy Halsall, 2002-09-05 This book examines one region of north eastern Gaul around Metz in the period between the end of the Roman Empire and the accession of Charlemagne It adopts a new multi disciplinary approach using all available evidence both documentary and archaeological It deals with a broad range of historical themes and by looking at the reasons behind the creation of different forms of evidence it examines how the different facets of social organisation ethnicity gender age and social hierarchy were related intimately to each other and to contemporary settlement patterns of the region As a result it is argued that the Merovingian period was not one of slow transformation from Roman to medieval but was one of constant dynamic social change and diversity even between the recognised periods of dramatic upheaval

Cemeteries and Society in Merovingian Gaul Guy Halsall, 2010 Bundeling van de zeven belangrijkste essays over de sociale interpretatie van de Merovingische begraafplaatsen archeologie The Merovingians in Historiographical Tradition Yaniv Fox, 2023-11-16 Examines how the story of the first royal Frankish dynasty was shaped across a millennium of historical writing

Society and Culture in Late Antique Gaul Ralph Mathisen, Danuta Shanzer, 2017-07-05 Late Roman Gaul is often seen either from a classical Roman perspective as an imperial province in decay and under constant threat from barbarian invasion or settlement or from the medieval one as the cradle of modern France and Germany Standard texts and moments have emerged and been canonized in the scholarship on the period be it Gaul aflame in 407 or the much disputed baptism of Clovis in 496 508 This volume avoids such stereotypes It brings together state of the art work in archaeology literary social and religious history philology philosophy epigraphy and numismatics not only to examine under used and new sources for the period but also critically to reexamine a few of the old standards This will provide a fresh view of various more unusual aspects of late Roman Gaul and also it is hoped serve as a model for ways of interpreting the late Roman sources for other areas times and contexts

Early Medieval Settlements Helena Hamerow, 2004 This is an overview and synthesis of the extensive and rapidly growing body of archaeological evidence for early medieval buildings settlements farming craft production and trade among the rural communities of north west Europe

Rituals of Power Frans Theuvs, Janet Nelson, 2021-10-01 13 papers by 16 leading archaeologists and historians of late antiquity and the early middle ages break new ground in their discussion analysis and criticism of present interpretations of early medieval rituals and their material correlates Some deal with rituals relating to death life cycles and the circulation in other contexts of objects otherwise used in the burial ritual Others are concerned with the symbolism and ideology of royal power the formation of a political ideology east of the Rhine from the mid 5th century

onwards and penance rituals in relation to Carolingian episcopal discourse on ecclesiastical power and morale All deal with the creation of new identities cultures norms and values and their expression in new rituals and ideas from the period of the Great Migrations through the Later Roman Empire down to the society of Beowulf and the later Carolingians *Carolingian Medical Knowledge and Practice, c.775-900* Claire Burridge,2024-07-15 Carolingian Medical Knowledge and Practice explores the practicality and applicability of the medical recipes recorded in early medieval manuscripts It takes an original dual approach to these overlooked and understudied texts by not only analysing their practical usability but by also re evaluating these writings in the light of osteological evidence Could those individuals with access to the manuscripts have used them in the context of therapy And would they have wanted to do so In asking these questions this book unpacks longstanding assumptions about the intended purposes of medical texts offering a new perspective on the relationship between medical knowledge and practice
