

Mexico Angers the Settlers

- Law of April 6, 1830 (Centralists)
 - Canceled all empresario contracts (except SFA and DeWitt)
 - Outlawed bringing slaves to Texas to make Texas more “Mexican”
 - Placed taxes on goods from U.S. to make American goods cost more than Mexican goods
 - Stopped immigration from the U.S. by placing more troops and setting up **garrisons** in Texas

Between the Rule of Law and States of Emergency Yoav Mehozay, 2016-10-12 Honorable Mention 2017 Yonathan Shapiro Award for Best Book in Israel Studies presented by the Association for Israel Studies Contemporary debates on states of emergency have focused on whether law can regulate emergency powers if at all These studies base their analyses on the premise that law and emergency are at odds with each other In *Between the Rule of Law and States of Emergency* Yoav Mehozay offers a fundamentally different approach demonstrating that law and emergency are mutually reinforcing paradigms that compensate for each other's shortcomings Through a careful dissection of Israel's emergency apparatus Mehozay illustrates that the reach of Israel's emergency regime goes beyond defending the state and its people against acts of terror In fact that apparatus has had a far greater impact on Israel's governing system and society as a whole than has traditionally been understood Mehozay pushes us to think about emergency powers beyond the war on terror and consider the role of emergency with regard to realms such as political economy

Settler Sovereignty Lisa Ford, 2010 In a brilliant comparative study of law and imperialism Lisa Ford argues that modern settler sovereignty emerged when settlers in North America and Australia defined indigenous theft and violence as crime This occurred not at the moment of settlement or federation but in the second quarter of the nineteenth century when notions of statehood sovereignty empire and civilization were in rapid global flux Ford traces the emergence of modern settler sovereignty in everyday contests between settlers and indigenous people in early national Georgia and the colony of New South Wales In both places before 1820 most settlers and indigenous people understood their conflicts as war resolved disputes with diplomacy and relied on shared notions like reciprocity and retaliation to address frontier theft and violence This legal pluralism however was under stress as new global statecraft linked sovereignty to the exercise of perfect territorial jurisdiction In Georgia New South Wales and elsewhere settler sovereignty emerged when at the same time in history settlers rejected legal pluralism and moved to control or remove indigenous peoples

Genocide on Settler Frontiers Mohamed Adhikari, 2015-06-01 European colonial conquest included many instances of indigenous peoples being exterminated Cases where invading commercial stock farmers clashed with hunter gatherers were particularly destructive often resulting in a degree of dispossession and slaughter that destroyed the ability of these societies to reproduce themselves The experience of aboriginal peoples in the settler colonies of southern Africa Australia North America and Latin America bears this out The frequency with which encounters of this kind resulted in the annihilation of forager societies raises the question of whether these conflicts were inherently genocidal an issue not yet addressed by scholars in a systematic way
