Settling The Frontier Land Law And Society In The Peshawar Valley 1500 19:

Settling the Frontier Robert Nichols, 2001 This Book Is A Valuable Contribution To Historical Literature On Agrarian Societies By Situating Peshawar At The Center Of An Expansive Regional History It Provides A Fresh Local Perspective On Broad Trends In Central Asia South Asia And The Muslim World It Provides Insights Into The Pakhtuns An Important World Community In Which Can Be Traced And Studied The Historical Chain Of Cause And Effect Provided By Numerous Influences Over Hundreds Of Years Genealogical History in the Persianate World Jo-Ann Gross, Daniel Beben, 2025-06-26

Scholarship on the Muslim world has recently begun to pay increased attention to non literary genres of documentation as sources for historical research Genealogical writings are one form of such documentation that has demonstrated significant potential for addressing a wide range of research concerns particularly for topics that receive little attention in historical chronicles and other state centered narrative sources However while genealogical documentation has received some attention in scholarship on the Arab world it remains mostly unstudied in scholarship on Persianate societies The chapters in this book offer reflections on theoretical and methodological issues concerning the study of genealogical documentation combined with case studies based primarily on previously unpublished unstudied source materials The topics explored span the full breadth of the Persianate world from Anatolia to the Ferghana Valley in Central Asia to the Gujarat region of India utilizing sources dating from the fourteenth to the twentieth century The book will be of significant interest to scholars and students of Islamic history and the Persianate ecumene as well as readers in other fields interested in comparative research demonstrating the use of genealogical documentation as historical sources Geopolitics of the Pakistan-Afghanistan Borderland Syed Sami Raza, Michael J. Shapiro, 2020-12-31

To understand the historical complexity of the Pakistan Afghanistan borderland this book brings together some of the foremost thinkers of this borderland and seeks to approach its various problematic dimensions This book presents an overview of the geopolitics of the Pakistan Afghanistan borderland and approaches the topic from different methods and perspectives It focuses on some of the least debated dimensions of this borderland for instance the status of women in the tribal border culture the legal status of aliens in the making of the border material and immaterial manifestations of the border political aesthetics of the border and the identity crisis on the border Given the fact that its authors come from diverse backgrounds academic and geographic they make an enriching contribution Employing their expertise in different theories and methods they focus on local memories literature and wisdom to understand the border This book seeks to give voice to the plight of local tribal people their culture and land on an advanced academic level and makes it legible for the international audience The chapters in this book were originally published as a special issue of the journal *Geopolitics* *Settling the Frontier* Robert Nichols (Professor of history), 1997 Principle and Pragmatism in Roman Law Benjamin Spagnolo, Joe Sampson, 2020-11-12 This edited collection presents an interesting and original series of essays on the roles of principle and pragmatism in Roman private law The book traverses key areas of

Roman law to examine the explanatory power of and delineate interactions between abstract doctrinal principle and pragmatic real world problem solving Essays canvassing sources of law property succession contracts and delicts sketch the varied roles of theoretical narratives whether internal to Roman doctrine or derived from external influence and of practical policy based solutions in the jurists thought Principled reasoning in Roman juristic argument ranges from safeguarding commerce to the priority of acts or intentions in property transactions to notions of pietas to Platonic conceptions of the market Pragmatism is discernible in myriad ways from divergence between form and substance to extension of legal rules for economic social or political utility to emphasis on what parties did rather than what they said The distinctive contribution of the book is its survey of different manifestations of principle and pragmatism across Roman private law The essays by eminent as well as emerging academics will stimulate debate about the roles principle and pragmatism play in juristic argument and will be of interest to both scholars and students of Roman law The Defiant Border Elisabeth Leake,2017

This book explores why the Afghan Pakistan borderlands have remained largely independent of state controls throughout the twentieth century *Body of Victim, Body of Warrior* Cabeiri deBergh Robinson,2013-03-08 This book provides a fascinating look at the creation of contemporary Muslim jihadists Basing the book on her long term fieldwork in the disputed borderlands between Pakistan and India Cabeiri deBergh Robinson tells the stories of people whose lives and families have been shaped by a long history of political conflict Interweaving historical and ethnographic evidence Robinson explains how refugee seeking has become a socially and politically debased practice in the Kashmir region and why this devaluation has turned refugee men into potential militants She reveals the fraught social processes by which individuals and families produce and maintain a modern jihad and she shows how Muslim refugees have forged an Islamic notion of rights a hybrid of global political ideals that adopts the language of human rights and humanitarianism as a means to rethink refugees positions in transnational communities Jihad is no longer seen as a collective fight for the sovereignty of the Islamic polity but instead as a personal struggle to establish the security of Muslim bodies against political violence torture and rape Robinson describes how this new understanding has contributed to the popularization of jihad in the Kashmir region decentered religious institutions as regulators of jihad in practice and turned the families of refugee youths into the ultimate mediators of entrance into militant organizations This provocative book challenges the idea that extremism in modern Muslim societies is the natural by product of a clash of civilizations of a universal Islamist ideology or of fundamentalist conversion **Hidden Caliphate** Waleed Ziad,2021-12-14 Waleed Ziad examines the development of Sufi led Muslim revivalist networks From the eighteenth to the twentieth centuries Naqshbandi Mujaddidi Sufis inspired reformist movements and articulated responses to the fracturing of Muslim political power They fostered a hidden caliphate that sustained cohesion from Afghanistan to Siberia and China Identity and Heritage Peter F. Biehl,Douglas C. Comer,Christopher Prescott,Hilary A. Soderland,2014-10-15 This book will suggest new agendas for identity and heritage studies by means of presenting contentious issues facing

archaeology and heritage management in a globalized world The book is not only present the variability of heritage objectives and experiences in the New and Old World and opens a discussion in a shrinking world to look beyond national and regional contexts If the heritage sector and archaeology are to remain relevant in our contemporary world and the near future there are a number of questions concerning the politics practices and narratives related to heritage and identity that must be addressed Questions of relevance in an affluent cosmopolitan setting are at odds with those relevant for a region emerging from civil war or ethnic strife or a national minority battling oppression or ethnic cleansing A premise is that heritage represents a broad scope of empirically and theoretically sound interpretations that heritage is a response to contemporary forces as much as data It is therefore necessary constantly to evaluate what is scientifically accurate as well as what is valid and relevant and what can have a contemporary impact

Return of a King William Dalrymple, 2013-04-16

From William Dalrymple award winning historian journalist and travel writer a masterly retelling of what was perhaps the West's greatest imperial disaster in the East and an important parable of neocolonial ambition folly and hubris that has striking relevance to our own time With access to newly discovered primary sources from archives in Afghanistan Pakistan Russia and India including a series of previously untranslated Afghan epic poems and biographies the author gives us the most immediate and comprehensive account yet of the spectacular first battle for Afghanistan the British invasion of the remote kingdom in 1839 Led by lancers in scarlet cloaks and plumed helmets and facing little resistance nearly 20 000 British and East India Company troops poured through the mountain passes from India into Afghanistan in order to reestablish Shah Shuja ul Mulk on the throne and as their puppet But after little more than two years the Afghans rose in answer to the call for jihad and the country exploded into rebellion This First Anglo Afghan War ended with an entire army of what was then the most powerful military nation in the world ambushed and destroyed in snowbound mountain passes by simply equipped Afghan tribesmen Only one British man made it through But Dalrymple takes us beyond the bare outline of this infamous battle and with penetrating balanced insight illuminates the uncanny similarities between the West's first disastrous entanglement with Afghanistan and the situation today He delineates the straightforward facts Shah Shuja and President Hamid Karzai share the same tribal heritage the Shah's principal opponents were the Ghilzai tribe who today make up the bulk of the Taliban's foot soldiers the same cities garrisoned by the British are today garrisoned by foreign troops attacked from the same rings of hills and high passes from which the British faced attack Dalrymple also makes clear the byzantine complexity of Afghanistan's age old tribal rivalries the stranglehold they have on the politics of the nation and the ways in which they ensnared both the British in the nineteenth century and NATO forces in the twenty first Informed by the author's decades long firsthand knowledge of Afghanistan and superbly shaped by his hallmark gifts as a narrative historian and his singular eye for the evocation of place and culture The Return of a King is both the definitive analysis of the First Anglo Afghan War and a work of stunning topicality
