Seurat Robert L. Herbert, 2001-01-01 This collection of the most influential of Herbert's writings on Seurat long out of print bear out the praise he has received for his ability to mix a deep knowledge of paintings and drawings as physical objects with an acute awareness of the way they embody ideas and can be understood as social documents This book will appeal both to the general reader and to the student of French nineteenth century art **BOOK JACKET** *Nuclear Science Abstracts*, 1972 **Georges Seurat** Michelle Foa, 2015-07-14 Studie van het werk van de Franse schilder 1859-1891 *Seurat, Paintings and Drawings. Herbert, Georges Seurat, 1991 A volume which embodies an entire generation of scholarship on the artist Seurat's brief but brilliant career is traced from his early academic drawings of the 1870s to the paintings of popular entertainments and the serene landscapes of his final years *Georges Seurat: Drawings and Paintings* Raya Yotova, 2018-06-18 Georges Seurat was an important Post Impressionist French painter He moved away from Impressionism and developed a structured more monumental art to depict modern urban life He is chiefly remembered as the pioneer of the Neo Impressionist technique commonly known as Divisionism or Pointillism an approach associated with a softly flickering surface of small dots or strokes of color His innovations derived from new quasi scientific theories about color and expression yet the graceful beauty of his work is explained by the influence of very different sources His success quickly propelled him to the forefront of the Parisian avant garde His triumph was short lived as after barely a decade of mature work he died at the age of only 31 But his innovations would be highly influential shaping the work of artists as diverse as Vincent van Gogh and the Italian Futurists while pictures like *A Sunday Afternoon on the Island of La Grande Jatte* have since become widely popular icons Seurat died in Paris on 29 March 1891 at the age of 31 The cause of his death is uncertain His last ambitious work *The Circus* was left unfinished at the time of his death *Delphi Complete Paintings of Georges Seurat (Illustrated)* Peter Russell, 2019-12-20 The founder of the nineteenth century French school of Neo Impressionism Georges Seurat devised the technique of Pointillism portraying the play of light with tiny brushstrokes of contrasting colours A man of studious habits and a scientific mind Seurat employed his original technique to create huge compositions with tiny detached strokes of pure colour too small to be distinguished when looking at the entire work though when viewed from a distance shimmered with brilliance In spite of his short life he left behind him an incredible body of work that would have a lasting impact on the history of modern art *Delphi's Masters of Art Series* presents the world's first digital e Art books allowing readers to explore the works of great artists in comprehensive detail This volume presents Seurat's complete paintings in beautiful detail with concise introductions hundreds of high quality images and the usual Delphi bonus material Version 1 The complete paintings of Georges Seurat over 250 images fully indexed and arranged in chronological

Seurat
Hajo Düchting, Georges Seurat, 2000 Georges Seurat died in 1891 aged only 32 and yet in a career that lasted little more than a decade he revolutionized technique in painting spearheaded a new movement Neoimpressionism and brought a degree of scientific rigour to his investigations of colour that would prove profoundly influential well into the 20th century As a student at the Ecole des Beaux Arts Seurat read Chevreul's 1839 book on the theory of colour and this along with his own analysis of Delacroix paintings and the aesthetic observations of scientist Charles Henry led him to formulate the concept of Divisionism This was a method of painting around colour contrasts in which shade and tone are built up through dots of paint pointillism that emphasise the complex inter relation of light and shadow
