Ascent of Society John S. Hatcher, 2007 In *The Ascent of Society: The Social Imperative in Personal Salvation* author John S. Hatcher answers questions that have been explored by spiritual seekers for many years: how does personal spiritual development translate into social experience? Is there a social imperative connected with individual spiritual growth? Is involvement with others necessary for one to evolve spiritually? This penetrating study describes the objective of personal spiritual growth as an ever-expanding sense of self that requires social relationships in order to develop. Hatcher focuses on the Bahá'í belief that human history is a divinely guided process in which spiritual principles are gradually and progressively expressed in social institutions. He demonstrates that the aspirant to spiritual transformation cannot view personal health and development as being possible apart from the progress of human society as a whole. **Renegade Beauty** Nadine Artemis, 2017-11-14 Rethink conventional notions of beauty and wellness; abandon established regimes and commercial products and embrace your renegade beauty. In this essential full-color guide, Nadine Artemis introduces readers to the concept of renegade beauty: a practice of doing less and allowing the elements and the life force of nature to revive the body, skin, and soul so our natural radiance can shine through. Anyone stuck in perpetual loops of new products, facials, and dermatologist appointments will find answers as Artemis illuminates the energizing elements of sun, fresh air, water, the earth, and plants. This book is a comprehensive resource for anyone who wants to simplify their self-care routine, take their health into their own hands, and discover their own radiant beauty. *A Natural History of the Senses* Diane Ackerman, 2011-12-07 Diane Ackerman's lusciously written grand tour of the realm of the senses includes conversations with an iceberg in Antarctica and a professional nose in New York, along with dissertations on kisses and tattoos, sadistic cuisine, and the music played by the planet Earth. Delightful, it gives the reader the richest possible feeling of the worlds the senses take in. *The New York Times*. *Sins of the Spirit, Blessings of the Flesh, Revised Edition* Matthew Fox, 2016-03-15 Visionary theologian and award-winning author Matthew Fox challenges traditional perceptions of good and evil by offering a new theology that lays the groundwork for a more enlightened treatment of ourselves, one another, and all of nature. In this revised edition, with a luminous foreword by Deepak Chopra and a new preface that brings the book up to date with the cataclysmic events of the new millennium, Fox illustrates how contrary to mainstream church doctrine, flesh is the grounding of spirit. Fox argues that our culture has concentrated far too much on transgressions of the flesh while failing to take into account its sacredness. Artfully weaving together the wisdom of East and West, he considers Thomas Aquinas's definition of sin as misdirected love and applies parallels between the Eastern teachings of the seven chakras and the Western teachings of the seven capital sins. Fox explains how the chakras teach us to direct the love energies we all possess and proposes seven positive precepts for living a full and spirited life. He invites us to change the way we think about sin and asserts that we can combat and transform evil through love, generosity, letting go, and creativity. Crafting a blueprint for social change, *Sins of the Spirit, Blessings of the Flesh* points the way toward a deeper and more compassionate way to live while eloquently revealing the

The God Theory Bernard Haisch, 2011-05-14 As science integrates the in depth knowledge of the physical world accumulated over the past three centuries it will be channeled into a new and exciting line of inquiry that acknowledges the expanded reality of consciousness as a creative force in the universe and the spiritual creative power embodied in our own minds This book summarizes the Socialism for Survival Allan H. Ancestors and Relatives Eviatar Zerubavel, 2012-01-26 Noted social scientist Eviatar Zerubavel casts a critical eye on how we trace our past individually and collectively arguing that rather than simply find out who our ancestors are from genetics or history we actually create the stories that make them our ancestors **Secret Societies and Classic**

Literature John T. Caswell, 2021-10-15 *Secret Societies and Classic Literature* is about much more than the connections between some of the greatest authors in literary history and the covert organizations they were associated with It also encompasses sacred geometry science the ancient wisdom those authors drew on for their inspiration and how that wisdom is so relevant in contemporary society It is about prophets their visions and the probable stimulus for their vivid imaginations and creative genius It is also about political intrigue and upheaval outlaws outcasts sexual scandals espionage and hallucinogenic substances Why does the number nine indicate the possible intelligent design of the universe Why are snakes worshiped in ancient cultures that were separated by thousands of miles How did Jonathan Swift predict Mars s two moons a century and a half before their existence was confirmed Did Christopher Marlowe plot to overthrow Queen Elizabeth and how and why was he killed Did William Blake s vision of the universe s creation mirror that of lost Gnostic texts that were undiscovered until 1945 What was Francis Bacon s true relationship to William Shakespeare and his works This book takes a closer look at all these questions and reveals much more about the authors and the intriguing lives they led en route to
