**Hierarchy and the Definition of Order in the Letters of Pseudo-Dionysius** Ronald F. Hathaway, 2012-12-06 Neoplatonism begins explicitly with Plotinus in the third century of our era The later Neoplatonism of the fifth and sixth century schools at Athens and Alexandria was both the continuation of the philosophy of Plotinus and also a pagan ideology When these schools were closed despite attempts at compromise at Alexandria and as a result of direct and indirect political pressures and actions pagan ideology died Many philosophers such as Isidore Asclepiodotus Damascius and Olympiodorus must have foreseen the danger to philosophy and their extant writings are sprinkled with forebodings Would the death of pagan ideology in the form of pagan worship and the Homeric and Orphic traditions bring about the death of all genuine philosophy as well One answer to this great question is found in the enigmatic writings of Pseudo-Dionysius the Areopagite Purposing to be the writings of the Athenian convert of St Paul they fall within the province of a multitude of so called pseudepigraphic Christian writings 1 GENERAL ARGUMENT I embarked on the study of Pseudo-Dionysius Letters with two goals in mind 1 to grasp in clear detail the unknown author's philosophic intentions in writing his famous Corpus and the way in which he set about writing and 2 to attempt to see with precision the reason for the absence of a political philosophy in Christian Platonism The Letters provided a richness of detail and information bearing on the first subject which was wholly unexpected

**The Key to the True Kabbalah** Franz Bardon, 2014-06-01 In The Key to the True Kabbalah Franz Bardon demonstrates that mysticism of letters and numbers the true Kabbalah is a universal teaching of great antiquity and depth Throughout the ages adepts of every time and place have achieved the highest levels of magical attainment through the understanding of sound color number and vibration as embodied in the Kabbalah This book the third in Franz Bardon's remarkable text of Hermetic magic is nothing less than a practical guide to such attainment Using the common German alphabet Bardon guides the reader through ever greater levels of Kabbalistic achievement No other available text reveals as great a depth of Kabbalistic wisdom or provides the reader with as much practical training Though intended primarily as a working text for those who have completed Bardon's first and second volumes Initiation into Hermetics and The Practice of Magical Evocation the present work stands on its own and even those without the requisite background in practical Hermetics will be fascinated by the author's intellectual journey through the mysticism of Tantric India Tibet the Hebrew Kabbalah and the ancient sources of the Western magical tradition

Coelbren John Michael Greer, 2023-09-26 Reveal the secrets of the esoteric druidic alphabet and unlock its potential as a powerful magical tool Writing systems have been used

for magical power and mystical insight in spiritual history throughout history and the Coelbren Alphabet is no different Originally devised by a famous Welsh poet the Bardic Alphabet known as the Coelbren has always seemed to hold great promise in the esoteric world But because of its impenetrable nature the capacity of the Coelbren Alphabet as a system of divination has remained hidden simply a relic of a bygone era However in this revised and expanded edition of his classic book John Michael Greer illuminates the power of the Alphabet and shows you how to implement it to full effect in your magical studies The book provides the name of each letter alongside the Welsh keyword meaning symbolism and pronunciation as well as the divinatory interpretation of each letter showing readers how to use this unique system for divination and magic It also provides sample readings scrying meditation techniques and tips for making your own Coelbren set The new edition includes a chapter on gematria as well as expanded chapters on the symbolism and magic of the alphabet

*Seven Hermetic Letters*, 2022-06-01 In the appendix to the first edition of Franz Bardon's novelized autobiography *Frabato the Magician* the reader will find excerpts from Dr Georg Lomer's work now embodied in this book At that time it was not known to the publisher that the material published under the title of *High Magic* was in fact the work of Dr Lomer The manuscripts included no reference to this author and though his name was contained in the Czech translation this was not known to the original German publisher until recently It is however important to note that Franz Bardon considered Dr Lomer's instructions to be of great value otherwise he would not have had them translated into Czech for the benefit of his students Dr Lomer's *Seven Hermetic Letters* belong without a doubt among the most valuable magical treatises of the 20th century providing incredible insight into one's spirit and astral nature The original title contained the words *secret science* which since the publication of the Bardon books have lost their earlier significance We are aware that many students do not adhere strictly to the instructions of the masters and do their exercises aimlessly without giving any serious thought to the consequences Dr Lomer recommends exercises whereby the consciousness is transferred into the feet and other parts of the body For those who have reached the magical equilibrium in accordance with the instructions given in Bardon's *Initiation into Hermetics* these exercises are not harmful Without this magical equilibrium however the student subjects himself to certain dangers concerning which Bardon warns us in *The Key to the True Kabbalah* pp 55 58 1996 edition In these days self cognition is not much in demand that is why the strictness of Dr Lomer's instructions may touch some readers unpleasantly But he who has the strong wish for spiritual perfection or simply theoretical knowledge will not be discouraged The exercises of spiritual astral and physical asceticism are intended to serve a higher purpose rather than one's own selfish desires

the essential ingredient in successful magical training the authors write And just as no one expects to run a marathon or play a Bach violin concerto without sufficient training so practitioners of the magical arts shouldn't expect to work complex powerful magical rituals without a solid grounding in the techniques of Hermetic high magic By spending at least a half hour a day practicing the lessons found in Learning Ritual Magic the solitary apprentice attains the proper groundwork and experience for working ritual magic Learning Ritual Magic provides lessons on meditation and a set of exercises designed to develop basic skills in imagination will memory and self knowledge all of which are absolute fundamentals to magical attainment While the authors discuss the essentials of magical theory they focus on daily basic perspectives rather than launching into details of advanced practice Designed for the solitary practitioner Learning Ritual Magic concludes with a ceremony of self initiation
