Seven Shades of Pale Ray Hursh, 2005-07-01 Seven stories And inside the confines of their covers reality stops This is where the dark images from beyond the outer limits begin These stories dwell in another universe A universe of the mind Step through the boundaries of thought to a place where the senses move from the dark illusions of a shadowy quest into a Disney type world of love as experienced by two swans in the wilds of a hidden lake and forest Then step into the twilight of nightmarish hallucinations as you journey into a world of madness These seven stories run the gamut of emotions ranging from uneasy panic in the Book Store into the terror of being buried alive in The Casket Then dwell in the shadows of a musician's battle with despair and drugs in The Saxophone As each story unfolds you find yourself crossing different intersections of the defined limits of reality into the twilight zone of emotion You won't be able to simply sit and read these stories for those who have read them previously have said Ray Hursh's writing is so descriptive that the reader will experience feelings of actually being there and of being a participant of the story Judy Binder Educator Now Enter into another dimension The dimension of the mind Cross the boundary into the outer limit of thought and dwell in the twilight of the unusual Experience another universe A universe controlled by the secret recesses of the mind **The Later Diaries of**

Forbes, Delphin A. Muise, 1993-12-15 Canada's four easternmost provinces while richly diverse in character and history share many elements of their political and economic experience within Confederation In this volume thirteen leading historians explore the shifting tides of Atlantic Canada's history beginning with the union of Nova Scotia and New Brunswick with Ontario and Quebec to form the Dominion in 1867 Continuing on through Prince Edward Island's entry into Confederation six years later and Newfoundland's in 1949 they take the story of Atlantic Canada up to the 1980s Collectively their work sheds light on the complex political dynamic between the region and Ottawa and reveals the roots of current social and economic realities Fragmentation versus integration plenty versus scarcity centre versus periphery and other models inform their analysis The development of regional disparity and responses to it form a major theme The tradition of regional protest by Maritimers and later Atlantic Canadians runs deep so does their commitment to the idea of an integrated Canadian nation Protests over the decades have primarily been expressions of frustration at perceived exclusion from the full benefits of national union The creation of national markets for labour capital and goods often operated to their detriment and political decisions at the national level frequently reinforced rather than alleviated the regional predicament More than an account of the wealthy and powerful this book often places ordinary men and women at the centre of the story Above all it reveals the resilience of Atlantic Canadians as they have struggled to overcome their problems and to share in the benefits of life in the Canadian community
