

The border of the book cover is decorated with seven circular portraits of individuals, likely the authors or subjects of the book. These portraits are arranged in a circular pattern around the central text. A trail of stars, some five-pointed and some seven-pointed, winds through the portraits, connecting them. The portraits show a variety of people, including men and women of different ages and ethnicities.

Seven Stars And Orion Reflections Of The Past:

Seven Stars and Orion Esther Hall Mumford, 1986 Esther Mumford's book is a totally engaging small scale historical study. The oral histories recorded and interpreted here have a lyric quality, the reflection of an oral tradition in the Black community; these tales contain refrains peculiar to Black people in the Northwest as well as elsewhere. The work of a historian who loves her subject matter and her subjects. Back cover The Forging of a Black Community Quintard Taylor, 2022-06-07 Seattle's first black resident was a sailor named Manuel Lopes who arrived in 1858 and became the small community's first barber. He left in the early 1870s to seek economic prosperity elsewhere but as Seattle transformed from a stopover town to a full fledged city African Americans began to stay and build a community. By the early twentieth century black life in Seattle coalesced in the Central District, a four square mile section east of downtown. Black Seattle however was never a monolith. Through world wars, economic booms and busts and the civil rights movement, black residents and leaders negotiated intragroup conflicts and had varied approaches to challenging racial inequity. Despite these differences they nurtured a distinct African American culture and black urban community ethos. With a new foreword and afterword, this second edition of *The Forging of a Black Community* is essential to understanding the history and present of the largest black community in the Pacific Northwest. Generations Past, 1988 This book is a selected list of books in the collections of the Library of Congress compiled primarily for researchers of Afro American lineages. Included in this bibliography are guidebooks, bibliographies, genealogies, collective biographies, United States local histories, directories and other works pertaining specifically to Afro Americans. Emphasis is on books that contain information about lesser known individuals of the nineteenth century and earlier, although Afro American business and city directories published through 1959 are listed. Women in Pacific Northwest History Karen J. Blair, 2016-06-01 This new edition of Karen Blair's popular anthology, originally published in 1989, includes thirteen essays, eight of which are new. Together they suggest the wide spectrum of women's experiences that make up a vital part of Northwest history. *In Search of the Racial Frontier* Quintard Taylor, 2014-05-26 An enthralling work that will be essential reading for years to come. David Nicholson, Washington Post. A landmark history of African Americans in the West, *In Search of the Racial Frontier* rescues the collective American consciousness from thinking solely of European pioneers when considering the exploration, settling and conquest of the territory west of the Mississippi. From its surprising discussions of groups of African American wholly absorbed into Native American culture to illustrating how the largely forgotten role of blacks in the West helped contribute to everything from the Brown vs Board of Education desegregation ruling to the rise of the Black Panther Party, Quintard Taylor fills a major void in American history and reminds us that the African American experience is unlimited by region or social status. **Beaten Down** David Peterson del Mar, 2011-10-01 Selected by Choice as an Outstanding Academic Title for 2003. The word violence conjures up images of terrorism, bombings and lynchings. *Beaten Down* is concerned with more prosaic acts of physical force.

a husband slapping his wife a parent taking a birch branch to a child a pair of drunken friends squaring off to establish who was the better man David Peterson del Mar accounts for the social relations of power that lie behind this intimate form of violence this white noise that has always been with us humming quietly between more explosive acts of violence Broad in its chronological and cultural sweep Beaten Down examines interpersonal violence in Washington Oregon and British Columbia beginning with Native American cultures before colonization and continuing into the mid twentieth century It contrasts the disparate ways of practicing and punishing interpersonal violence on each side of the U S Canadian border Del Mar concludes that we cannot comprehend the causes and moral consequences of a violent act without considering larger social relations of power whether between colonizers and original inhabitants between spouses between parents and children or between and among different ethnic groups The author has drawn on a vast array of vivid sources including newspaper accounts autobiographies novels oral histories historical and ethnographic publications and hundreds of detailed court cases to account for not only the relative frequency of different forms of violence but also the shifting definitions and perceptions of what constitutes violence This is a thoughtful and probing account of how and why people have hit each other and the manner in which opinion makers and ordinary citizens have censured defended or celebrated such acts Del Mar s conclusions have important implications for an understanding of violence and perceptions of violence in contemporary society

African American Women Confront the West, 1600-2000 Quintard Taylor, Shirley Ann Wilson Moore, 2008-08-01 Reconstructs the history of black women s participation in western settlement A stellar collection of essays by talented authors who explore fascinating topics Journal of American Ethnic History African American Women Confront the West 1600 2000 is the first major historical anthology on the topic The editors argue that African American women in the West played active though sometimes unacknowledged roles in shaping the political ideological and social currents that have influenced the United States over the past three centuries Contributors to this volume explore African American women s life experiences in the West their influences on the experiences of the region s diverse peoples and their legacy in rural and urban communities from Montana to Texas and from California to Kansas The essayists explore what it has meant to be an African American woman from the era of Spanish colonial rule in eighteenth century New Mexico to the black power era of the 1960s and 1970s

Radical Black Theatre in the New Deal Kate Dossett, 2020-01-29 Between 1935 and 1939 the United States government paid out of work artists to write act and stage theatre as part of the Federal Theatre Project FTP a New Deal job relief program In segregated Negro Units set up under the FTP African American artists took on theatre work usually reserved for whites staged black versions of white classics and developed radical new dramas In this fresh history of the FTP Negro Units Kate Dossett examines what she calls the black performance community a broad network of actors dramatists audiences critics and community activists who made and remade black theatre manuscripts for the Negro Units and other theatre companies from New York to Seattle Tracing how African American playwrights and troupes developed

these manuscripts and how they were then contested revised and reinterpreted Dossett argues that these texts constitute an archive of black agency and understanding their history allows us to consider black dramas on their own terms The cultural and intellectual labor of black theatre artists was at the heart of radical politics in 1930s America and their work became an important battleground in a turbulent decade

History Comes Alive M. J. Rymysz-Pawlowska, 2017-10-03 During the 1976 Bicentennial celebration millions of Americans engaged with the past in brand new ways They became absorbed by historical miniseries like Roots visited museums with new exhibits that immersed them in the past propelled works of historical fiction onto the bestseller list and participated in living history events across the nation While many of these activities were sparked by the Bicentennial M J Rymysz-Pawlowska shows that in fact they were symptomatic of a fundamental shift in Americans relationship to history during the 1960s and 1970s For the majority of the twentieth century Americans thought of the past as foundational to but separate from the present and they learned and thought about history in informational terms But Rymysz-Pawlowska argues that the popular culture of the 1970s reflected an emerging desire to engage and enact the past on a more emotional level to consider the feelings and motivations of historic individuals and most importantly to use this in reevaluating both the past and the present This thought provoking book charts the era s shifting feeling for history and explores how it serves as a foundation for the experience and practice of history making today

The City Is More Than Human Frederick L. Brown, 2016-10-03 Winner of the 2017 Virginia Marie Folkins Award Association of King County Historical Organizations AKCHO Winner of the 2017 Hal K Rothman Book Prize Western History Association Seattle would not exist without animals Animals have played a vital role in shaping the city from its founding amid existing indigenous towns in the mid nineteenth century to the livestock friendly town of the late nineteenth century to the pet friendly livestock averse modern city When newcomers first arrived in the 1850s they hastened to assemble the familiar cohort of cattle horses pigs chickens and other animals that defined European agriculture This in turn contributed to the dispossession of the Native residents of the area However just as various animals were used to create a Euro American city the elimination of these same animals from Seattle was key to the creation of the new middle class neighborhoods of the twentieth century As dogs and cats came to symbolize home and family Seattleites relationship with livestock became distant and exploitative demonstrating the deep social contradictions that characterize the modern American metropolis Throughout Seattle s history people have sorted animals into categories and into places as a way of asserting power over animals other people and property In The City Is More Than Human Frederick Brown explores the dynamic troubled relationship humans have with animals In so doing he challenges us to acknowledge the role of animals of all sorts in the making and remaking of cities
