structure by applying criteria of selection nearly always accepted unconsciously and uncritically The aim of this text in selecting Examinations as the theme of the 1969 WORLD YEAR BOOK was to present a comparative analysis of the way in which examinations are devised administered and assessed to find out why we are examining and to look at the ways in which we examine to see if these are efficient relevant and reliable *Plurality, Conjunction and Events* P.

Lasersohn,2013-03-09 *Plurality Conjunction and Events* presents a novel theory of plural and conjoined phrases in an event based semantic framework It begins by reviewing options for treating the alternation between collective and distributive readings of sentences containing plural or conjoined noun phrases including analyses from both the modern and the premodern literature It is argued that plural and conjoined noun phrases are unambiguously group denoting and that the collective distributive distinction therefore must be located in the predicates with which these noun phrases combine More specifically predicates must have a hidden argument place for events the collective distributive distinction may then be represented in the part whole structure of these events This allows a natural treatment of collectivizing adverbial expressions and of pluractional affixes it also allows a unified semantics for conjunction in which conjoined sentences and predicates denote groups of events much like conjoined noun phrases denote groups of individuals *Daily Racing Form Chart Bppl*
