Seventeenth Century Economic Documents:

Seventeenth-century Economic Documents Joan Thirsk, John Phillips Cooper, 1972 Seventeenth-century Economic Documents Joan Thirsk, John Phillips Cooper, 1972 **Economic History of the Seventeenth Century** G. P. Jones (Litt. D.),

The Making of the English Middle Class Peter Earle, 1989-01-01 This is the first major study of a neglected yet extremely significant subject the London middle classes in the period between 1660 and 1730 a period in which they created a society and economy that can be seen with hindsight to have ushered in the modern world Using a wealth of material from contemporary sources including wills business papers inventories marriage contracts divorce hearings and the writings of Daniel Defoe and Samuel Pepys Peter Earle presents a fully rounded picture of the middling sort of people getting to the hearts of their lives as men and women struggling for success in the biggest richest and most middle class city in contemporary Europe He examines in fascinating and convincing detail the business life of Londoners from apprenticeship through the problems and potential rewards of different occupational groups going on to look at middle class family social political and material life from relationships with spouses children servants and neighbors to food and clothes and furniture to sickness death and burial Stimulating scholarly and constantly illuminating this book is an important and impressive contribution to English social history

The Business Community of Seventeenth-Century England Richard Grassby, 2002-11-07 A comprehensive study of the business community in a pre industrial economy **English Merchants in Seventeenth-Century Italy** Gigliola Pagano De Divitiis, 1997 This book shows how England's conquest of Mediterranean trade proved to be the first step in building its future economic and commercial hegemony and how Italy lay at the heart of that process In the seventeenth century the Mediterranean was the largest market for the colonial products which were exported by English merchants as well as being a source of raw materials which were indispensable for the growing and increasingly aggressive domestic textile industry The new free port of Livorno became the linchpin of English trade with the Mediterranean and together with ports in southern Italy formed part of a system which enabled the English merchant fleet to take control of the region's trade from the Italians In her extensive use of English and Italian archival sources the author looks well beyond Braudel's influential picture of a Spanish dominated Mediterranean world In doing so she demonstrates some of the causes of Italy's decline and its subsequent relegation as a dominant force in world trade **England's Baltic**

Trade in the Early Seventeenth Century Trade J. K. Fedorowicz, 1980 England's relationship with the Baltic trading area has remained a generally neglected aspect of English commercial development in the seventeenth century The spectacular colonial ventures have traditionally attracted more historical attention although the Baltic trade in this period was more fundamental to the English economy it supplied precisely those naval commodities such as flax hemp timber pitch and tar which facilitated the creation of fleets for the colonial trades Medieval English trade had been conditioned by a search for markets and the predominantly agricultural economy of the Polish Commonwealth proved to be an ideal target for cloth

exports By the early seventeenth century however this traditional relationship was changing The growing English fleets demanded steady supplies of naval stores which Poland was increasingly unable to supply while the Polish economy weakened by wars and entering a period of decline could no longer afford the luxury of cloth imports from England

English Society Keith Wrightson, 2003 A brilliant and persuasive synthesis of the best recent work in all fields of seventeenth century English history Christopher Hill A triumphant success deserves to be widely read H T Dickinson Conceived as an intellectual whole and vibrantly alive John Kenyon The Observer English Society 1580 1680 paints a fascinating picture of society and societal change in the late sixteenth and seventeenth centuries It discusses both the enduring characteristics of society as well as the course of social change The book emphasizes the wide variation in experience between different social groups and local communities and the unevenness of the process of transition to build up an overall interpretation of continuity and change In this edition Keith Wrightson provides a new introduction to set the book in its context and to reflect on recent research together with an updated guide to further reading Keith Wrightson is a professor of history at Yale University His many books include Earthly Necessities Economic Lives in Early Modern Britain

English Society 1580-1680 Keith Wrightson, Reader in Social History and Director of Studies in History Keith Wrightson, 2002-11 First Published in 1982 Routledge is an imprint of Taylor Francis an informa company **Transactions of the Royal Historical Society: Volume 8** Royal Historical Society, 1999-02-04 Volume 8 of The Royal Historical Society Transactions contains essays based around the theme identities and empires
