Seventeenth Century Verse Prose Volume 2:

Seventeenth-Century Verse and Prose; Volume two : 1660-1700 Helen C. White, *The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800* George Watson, Ian R. Willison, 1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of *The Cambridge Bibliography of English Literature*. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries. **Critical Essays of the Seventeenth Century ...: vol. Joel Elias Spingarn, 1908 *The New Cambridge Bibliography of English Literature: Volume 1, 600-1660* George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of *The Cambridge Bibliography of English Literature*. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries. *Fault Lines and Controversies in the Study of Seventeenth-century English Literature* Claude J. Summers, Ted-Larry Pebworth, 2002 Written by various experts in the field, this volume of thirteen original essays explores some of the most significant theoretical and practical fault lines and controversies in seventeenth-century English literature. The turn into the twenty-first century is an appropriate time to take stock of the state of the field and as part of that stocktaking the need arises to assess both where literary study of the early modern period has been and where it might desirably go. Hence many of the essays in this collection look both backward and forward. They chart the changes in the field over the past half century while also looking forward to more change in the future. **The Seventeenth Century Hebrew Book (2 Vols)** Marvin J. Heller, 2011 *The Seventeenth Century Hebrew Book* covers the gamut of Hebrew literature in that century. Each entry has a descriptive text page and an accompanying reproduction. There is an extensive introduction with an overview of Hebrew printing in the seventeenth century.
